FOR IMMEDIATE RELEASE:
April 21, 2022

City Council Regular Meeting News Summary

Thursday, April 21, 2022

NEW ORLEANS - During its regular meeting today, the New Orleans City Council approved the renaming of Lee Circle, adopted two resolutions relative to its ongoing probe of the Mayor's proposed "Smart City" project, moved forward with an election that would require Council approval of City appointments, and amended the City Code to remove the current provision requiring that money collected per Chapter 6 be applied to satisfy code enforcement liens before ad valorem taxes, among other items.

At the start of the meeting, Councilmembers heard a presentation from representatives of the New Orleans Jazz & Heritage Foundation detailing the highly-anticipated return of Jazz Fest in 2022 and presented them with a proclamation for their role in preserving Louisiana's musical culture, traditions, and tourism.

---

Lee Circle Gets New Name, Ending Years of Homage to Oppressive Ideals

After nearly two years of thorough discussion and public engagement led by the City Council and its advisory Street Renaming Commission (CCSRC), Lee Circle has been renamed Harmony Circle. With its unanimous approval of Ordinance 33,687 today, Councilmembers took another significant step forward in eradicating the glorification of white supremacists throughout the city.

Today's name change comes on the heels of several other historic street renaming initiatives approved by the Council this year, including the renaming of Robert E Lee Blvd. to Allen Toussaint Blvd. and Slidell St. to Red Allen Way this past January.

"I appreciate the support I received from my colleagues to relegate Lee Circle to the history books," **said District "B" Councilmember Lesli Harris.** "I'm proud to be a member of this Council that prioritizes creating a more equitable and just New Orleans. Part of that is ensuring there is no room for hatred and racism. Harmony Circle will reflect what really matters to our city: mutuality, joy, and celebrating our beautiful culture."

Photo of Lee Circle courtesy of Wikimedia

When then-Mayor Mitch Landrieu and the City Council removed the statue of Confederate General Robert E. Lee in 2017, New Orleans took a powerful stand against

the racist and oppressive ideologies that have plagued it and the rest of the nation for far too long.

With the final renaming of Lee Circle to Harmony Circle, the prominent gateway from uptown to downtown will now serve as a reminder of equity, inclusion, and the melting pot of backgrounds, cultures, ethnicities, and beliefs that have shaped the city of New Orleans as it has come to be known and loved today.

“The reasons that necessitated taking down the Robert E. Lee monument are the same reasons why Lee Circle must be renamed," **said State Representative Royce Duplessis.** "I am proud to support the renaming of Lee Circle to Harmony Circle. Harmony is emblematic of New Orleans, as we celebrate blending our diversity together as a strength.”

"This city has such a rich and multicultural history. When we come together, we create something better, something more than these individual cultures and traditions. We create a New Orleans that we can all take pride and joy in. Harmony Circle gives us the opportunity to unite our people rather than divide them and will be a beacon of light for future generations," **said Mark Raymond, Jr., Vice-Chair of the CCSRC.**

While the citywide street renaming process is far from over, the Council will continue moving forward until all of New Orleans’ signs and symbols reflect a better, brighter future than that of its past.

CCSRC Vice-Chair Raymond expressing his support for the renaming prior to the vote on Ord. 33,687

Council Continues to Push for More Oversight & Accountability Within City Government

Councilmembers passed three items today to provide increased accountability, oversight, and collaboration for major projects and governmental appointments proposed by the Administration.

With its passage of Ordinance 33,625, the Council has called for an election on November 8, 2022, where voters will be asked to approve a ballot initiative that would create additional checks, balances, and processes for governmental appointments. The proposed amendment to the Home Rule Charter would require Council approval of any person appointed by the Mayor or Chief Administrative Officer to leadership positions within City-run offices, departments, commissions, or boards in order to determine their ability to manage multi-million dollar budgets and to be stewards of the public's safety and trust.

“Recent behavior of the Administration has reinforced public opinion that the government is untrustworthy and non-transparent,” **said Council Vice President JP**

Morrell. “The purpose of filing this home rule charter amendment, and taking ample time to debate it, is about having the people of New Orleans dictate the future of this city. The future of this city and its governance should be in the people's hands, not the mayor’s."

The second item, Resolution R-22-199, addresses recent concerns expressed by the Council and members of the public over the Mayor's "Smart City" proposal and the selected contractor. In the Request for Proposals (RFP) issued by the City in April 2021 for the project, the stated purpose was “to seek a vendor to develop and implement a comprehensive smart city infrastructure to City services, reduce costs to the City, and increase digital equity for residents and businesses.”

After reviewing the responses from five entities in March 2022, the Mayor’s Office of Neighborhood Engagement announced a partnership with JLC Infrastructure, Jacob’s Engineering, ad Qualcomm to install internet and smart technologies facilities. In light of a recent article from The Lens on April 11 reporting the City intended to enter into a one-year agreement without seeking Council approval, Councilmembers issued a subpoena directing the Mayor’s Office to provide all relevant documents related to the RFP.

The letter submitted in response to the subpoena described several projects with timelines between three months and three years, the nature of which would require significant investment in infrastructure and the use of public streets and places. In these circumstances, the use of one-year CEAs illegally infringes upon the Council’s legal authority under the Home Rule Charter. Therefore, Councilmembers adopted R-22-199 resolution saying that any agreement(s) related to the smart city initiative and RFP should be a multi-year agreement subject to the Council’s review and approval — particularly when the project commits the City to major investments.

In another step to address the evolving situation involving the Mayor's Smart Cities/WiFi contract, the Council adopted a second resolution under suspension opening an official investigation into the matter. This instrument identifies the Council’s authority to administer oaths, subpoena witnesses, and further compel the production of materials and documents to support the investigation.

Testimony relative to that subpoena is expected at a special Council meeting later this month.

“It is a very unfortunate day that we are in that we even have to proceed in this manner, but what myself and other Councilmembers have looked at through the series of emails and other information that's been brought to our attention, has unfortunately left us no other course of action so we will proceed accordingly,” **said Council President Helena Moreno.** “When contracts are awarded by City, it should be because they’re best for the people of the city, not what’s best for its employees that could be financially gaining from them.”

“None of us want to unnecessarily fight with our partners in the Administration,” **added District “A” Councilmember Joe Giarrusso.** “With any work being done in or by the City of New Orleans, we want to ensure our residents that it’s being done well, being done correctly, and that nothing’s being missed. By holding this public forum and seeking the additional documentation, hopefully, that will become clearer.”

The Council will continue to provide the public with updates on these matters as they develop in the coming weeks.

New Orleans City Council
The New Orleans City Council is the legislative branch of the New Orleans city government. The Council considers and enacts all local laws that govern the City of New Orleans. The Council also approves the operating and capital budgets for the City, as recommended by the mayor, and continually monitors revenues and expenditures for local government operations. The City Council is also the regulatory body for public utilities. It also reviews and has the final say on many land use and zoning matters, as well as considers major economic development projects for the City. As a Board of Review for Orleans Parish, the Council examines appeals of property tax assessments for real estate taxes and certifies tax rolls to the Louisiana Tax Commission. Other responsibilities of the Council include overseeing the operation of the public access television in Orleans Parish. Streaming video and video archives of the City Council's

Regular and Committee meetings can be found on the City Council website.

The City Council is comprised of five districts and Councilmembers-at-large: Council President and Councilmember-at-Large Helena Moreno; Council Vice President and Councilmember-At-Large JP Morrell; District "A" Councilmember Joseph I. Giarrusso, III; District "B" Councilmember Lesli D. Harris; District "C" Councilmember Freddie King III; District "D" Councilmember Eugene J. Green, Jr.; and District "E" Councilmember Oliver M. Thomas, Jr.

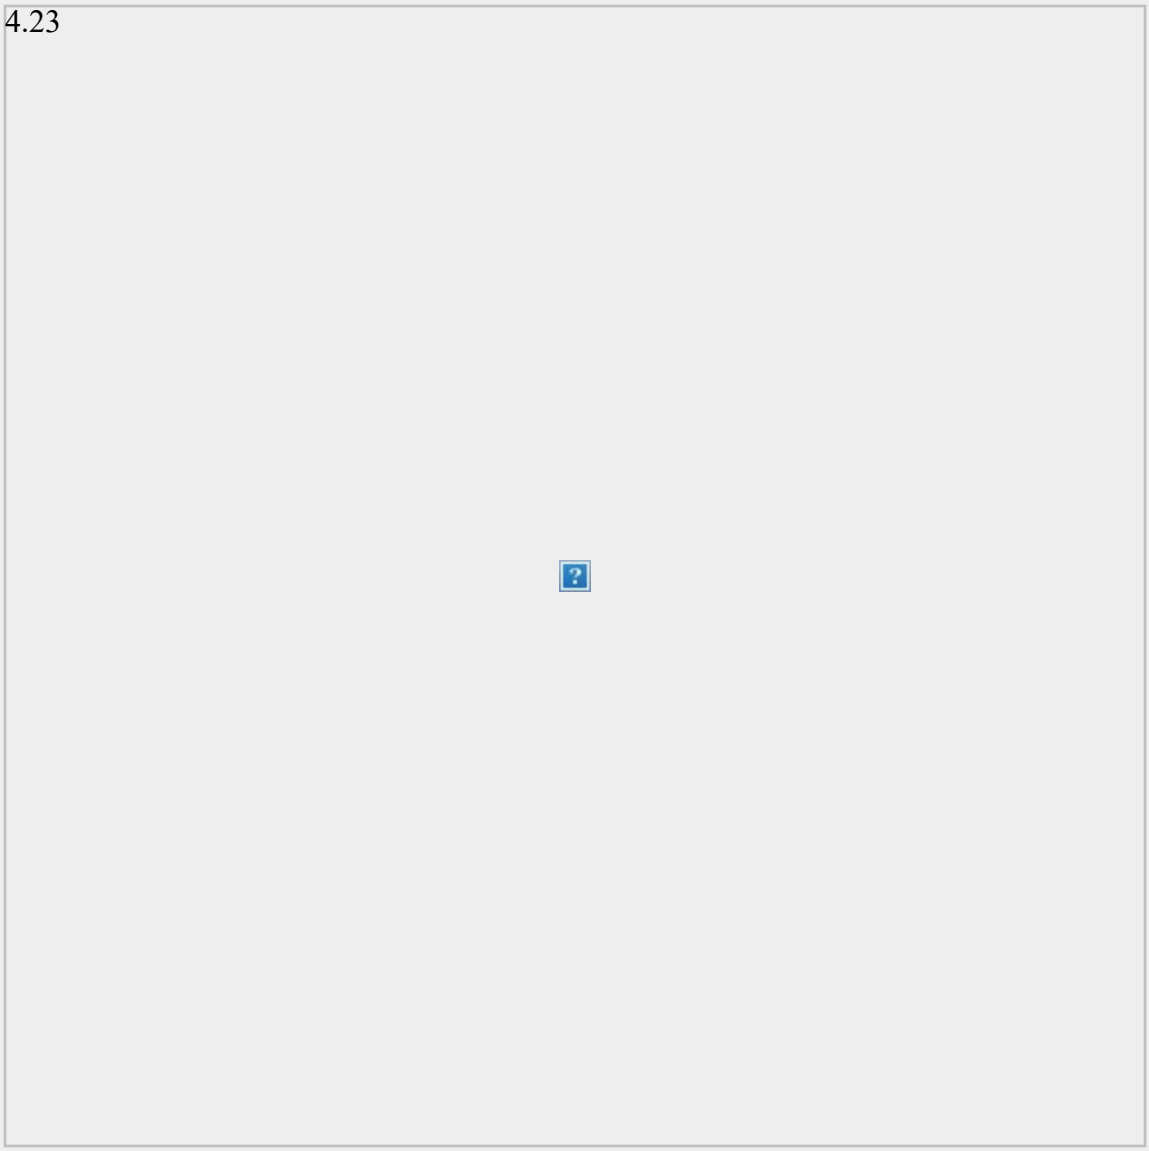
Join Mayor LaToya Cantrell in Algiers for the Neighborhood Cares Day!

4.23



On Saturday, April 23rd, join the Mayor's Neighborhood Engagement Office, residents, churches, schools, and businesses for a community care day and resource fair in **Algiers!**

Volunteers will have the opportunity to make improvements to several items in the interior and exterior areas of Donsereaux/Harrison Playground. This includes but is not limited to: **installation of playground's benches, painting of the clubhouse, and fence improvements**. Volunteers will also be able to beautify the neighborhood by **removing liter/debris** in Donsereaux/Harrison playground and surrounding streets.

Food and beverage will also be provided to all volunteers!

Volunteer check-in begins at 8:30 AM, and the event begins at 9 AM. The event will be held at the Donsereaux/Harrison Playground (1138 Odeon St.) from 9 AM – 12 PM.

Please register to volunteer at: https://rtneworleans.secure.force.com

or visit https://www.nola.gov/nci/

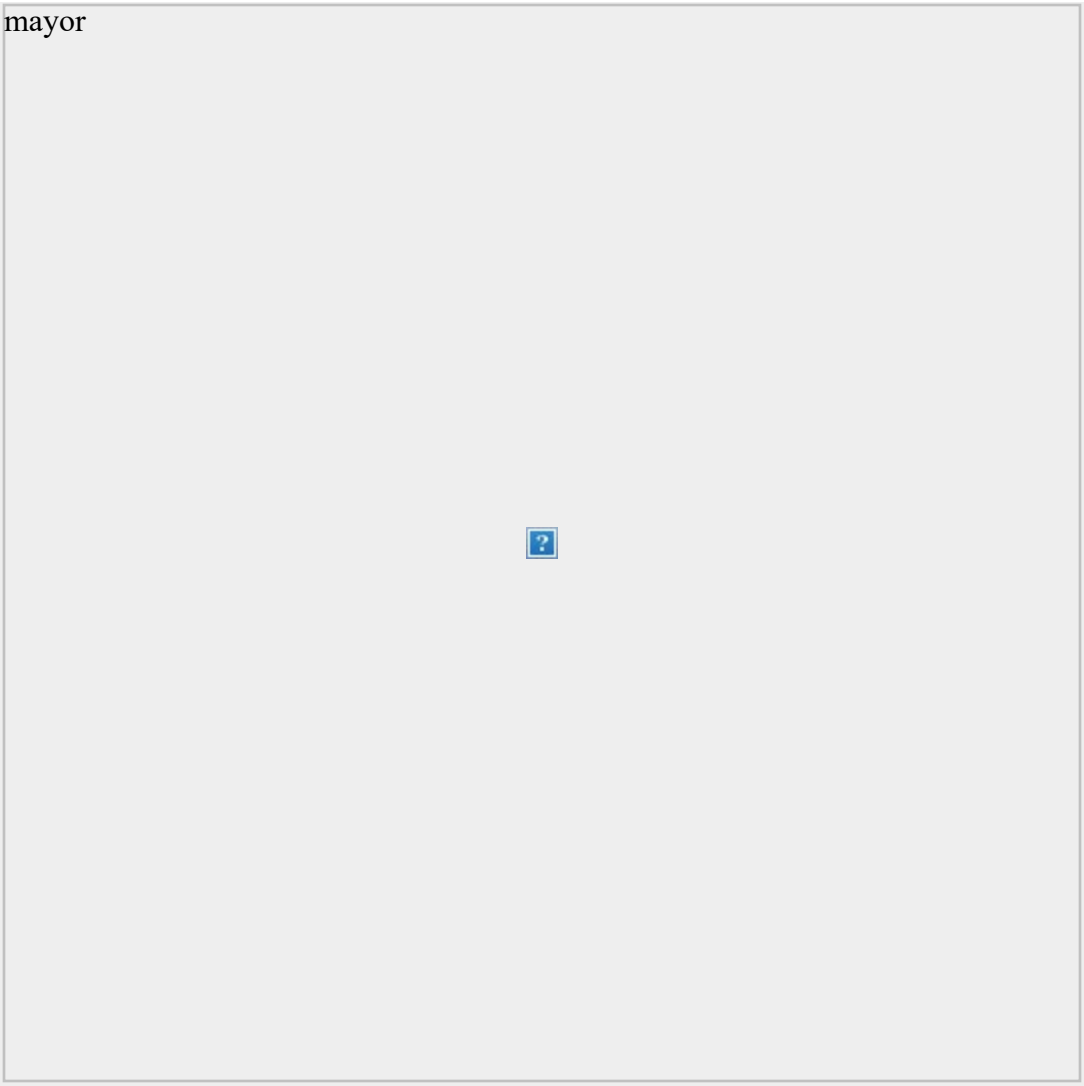
Smart City Initiative:

MAYOR CANTRELL, “MAGIC” JOHNSON, AND JAMES 'JIM' REYNOLDS OF JLC INFRASTRUCTURE ANNOUNCE SMART CITY DEVELOPMENT INITIATIVE

smart city

---

mayor



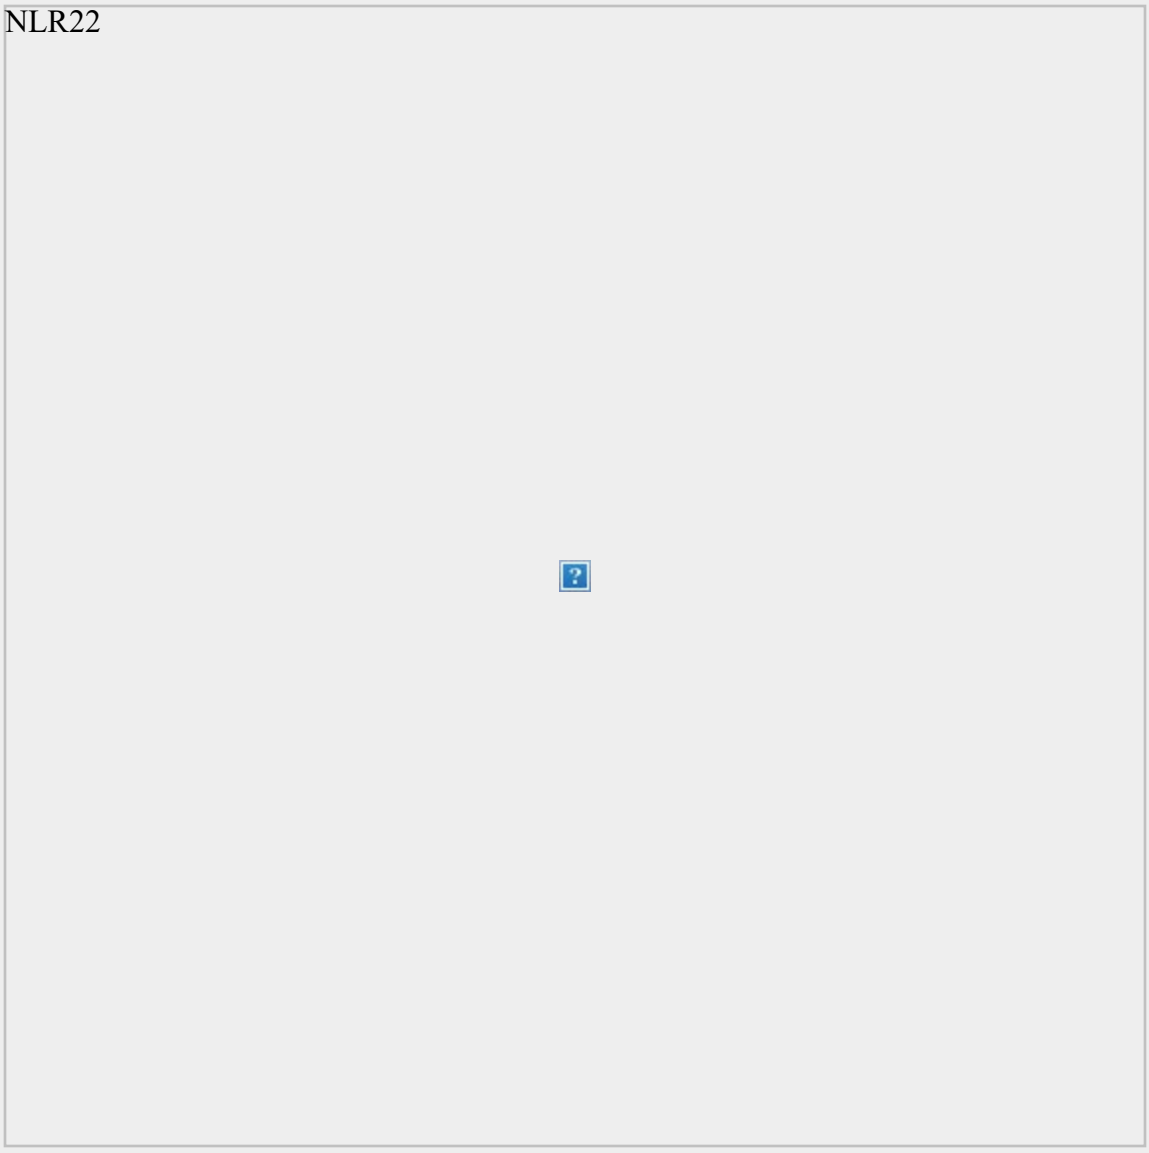
On Friday, April 1, 2022 Mayor LaToya Cantrell was joined by Earvin “Magic” Johnson and James 'Jim' Reynolds, founders of JLC Infrastructure, in several New Orleans neighborhoods to announce the rollout of the Smart City Initiative. This program will deliver broadband connectivity and a host of Smart City solutions that include internet service, to promote economic development and bridge the digital divide in underserved communities.

Community leaders were provided an opportunity to hear about and discuss the Smart City Initiative at three locations including G. W. Carver High School located in the Florida/Desire neighborhood, Joe W. Brown Park Recreation Center in New Orleans East, and at the Abundant Life Tabernacle Church in the St. Roch neighborhood. The Cantrell Administration’s goal is to bring these services to three initial New Orleans Recreation Development (NORD) Commission Centers across the city: the Joe W. Brown Park Recreation Center in District E, the Milne Recreation Center in District D and the Treme Center in District C.

Neighborhood Leaders Roundtable:

Public Safety

NLR22



On Saturday, March 26, 2022 the Mayor's Neighborhood Engagement Office held its first-quarter Neighborhood Leaders Roundtable to discuss public safety. Guest speakers included New Orleans Police Department Superintendent Shaun Ferguson, New Orleans Fire Department Chief Roman Nelson, and Office of Criminal Justice Coordination Commissioner Tenisha Stevens. Over 200 neighborhood leaders attended the Roundtable.

Meet Your Neighborhood Liaison at Community Office Hours!

CITY OF NEW ORLEANS SELECTED FOR U.S. ENERGY DEPARTMENT'S COMMUNITIES LOCAL ENERGY ACTION PROGRAM

NEW ORLEANS — The City of New Orleans today announced that it has been selected as one of 22 communities nationwide to receive support from the U.S. Department of Energy (DOE) Communities Local Energy Action Program (LEAP). This "first-of-its-kind" initiative is designed to help energy-overburdened communities take direct control of their clean energy future.

Based on a competitive application process, Communities LEAP will help the City further develop climate action strategies to develop distributed solar generation with battery storage and district-scale microgrids. The program will also provide long-term jobs and economic opportunities in green industries.

"The City of New Orleans is on the front lines of climate change and at the forefront of climate action," said **Jonathan Rhodes, Director of the Mayor's Office of Utilities**. "I am proud of our team for earning a place in the Communities LEAP program. This partnership with the federal government will help the City build a more resilient, sustainable and equitable New Orleans while providing opportunities in green infrastructure for all."

By receiving targeted technical assistance, LEAP will provide the City of New Orleans access to additional DOE and other federal government programs, including the $1.3 trillion Infrastructure Investment and Jobs Act funding in the near future. Participating in Communities LEAP not only reinforces the Cantrell Administration's Climate Action plan but also ensures that New Orleans meets its C40 Cities climate leadership commitments to community-led development and delivering bold climate action that benefits all residents equitably.

"This partnership with the DOE will build on our ongoing planning and investments in climate action," said **Rhodes**. "Through Communities LEAP, we will collaborate across communities, industries and stakeholders to develop a citywide roadmap for coordinated climate action."

The transition to a clean energy economy lowers local air pollution and energy burdens while bringing billions of dollars in continued investments and generating good-paying jobs. In 2019, renewable energy investments in the U.S. reached $55 billion and clean energy jobs paid 25 percent more than the national median wage. Workers in the clean energy industry earned a median hourly wage of $23.89 compared to the national median wage of $19.14.

As one of only 22 selected communities, the City of New Orleans will work with DOE and its network of technical assistance providers, government and non-governmental partners, community-based organizations, utilities, as well as environmental justice, economic development, and equitable investment organizations to create roadmaps for clean energy modernization pathways.

Multiple City agencies will participate as a part of the Communities LEAP team, including the Office of Economic Development, Office of Utilities, Neighborhood Engagement Office, and Hazard Mitigation Office.

CITY ISSUES ZONING INTERPRETATION CHANGE FOR SHORT-TERM RENTALS

NEW ORLEANS – On Friday, April 1, 2022, The City of New Orleans Department of Safety and Permits released a zoning interpretation establishing changes to commercial short-term rental (STR) licensing. The Board of Zoning Adjustments (BZA) determined during its previous meeting that commercial STRs will now be considered a commercial use under the Comprehensive Zoning Ordinance.

The Department had previously considered commercial STRs to be a residential use in a primarily commercial area. This change means that effective immediately, they are now considered the same as all other commercial-use buildings. Applicants for new commercial STR permits will also have to apply for a building permit before they can be eligible for the STR permit. This will include a zoning and plan review of the structure for commercial use.

NORD: HOSTS NINTH EASTER CELEBRATIONS

EASTER EGG HUNT

The New Orleans Recreation Development (NORD) Commission hosted its ninth annual Easter Celebrations from 10 a.m. to 1 p.m. on Saturday, April 9 at the following parks:

- Joe W. Brown Park, 5601 Read Blvd. (New Orleans East)
- Lafitte Greenway, 1971 St. Louis St. (Mid-City)
- Morris F.X. Jeff, Sr. Park, 2529 General Meyer Ave. (Westbank)

Children of all ages were invited to join the Easter Bunny and brought their baskets for the annual egg hunt. Eggs were filled with candy and prizes, with distinct golden eggs available at each location containing special prizes and treats. Family-friendly activities included face painters, spacewalks and field games. Refreshments were also provided.

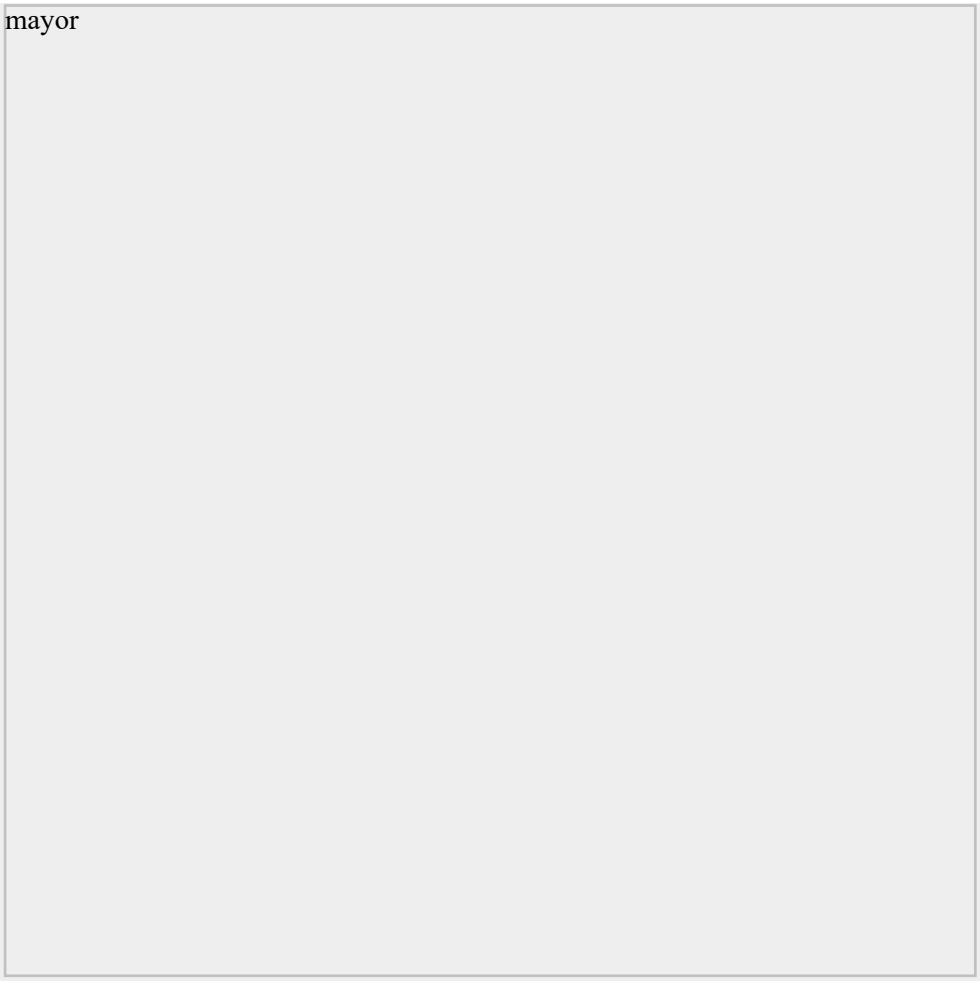
MAYOR CANTRELL, “MAGIC” JOHNSON, AND JAMES 'JIM' REYNOLDS OF JLC INFRASTRUCTURE ANNOUNCE SMART CITY DEVELOPMENT INITIATIVE

smart city

mayor

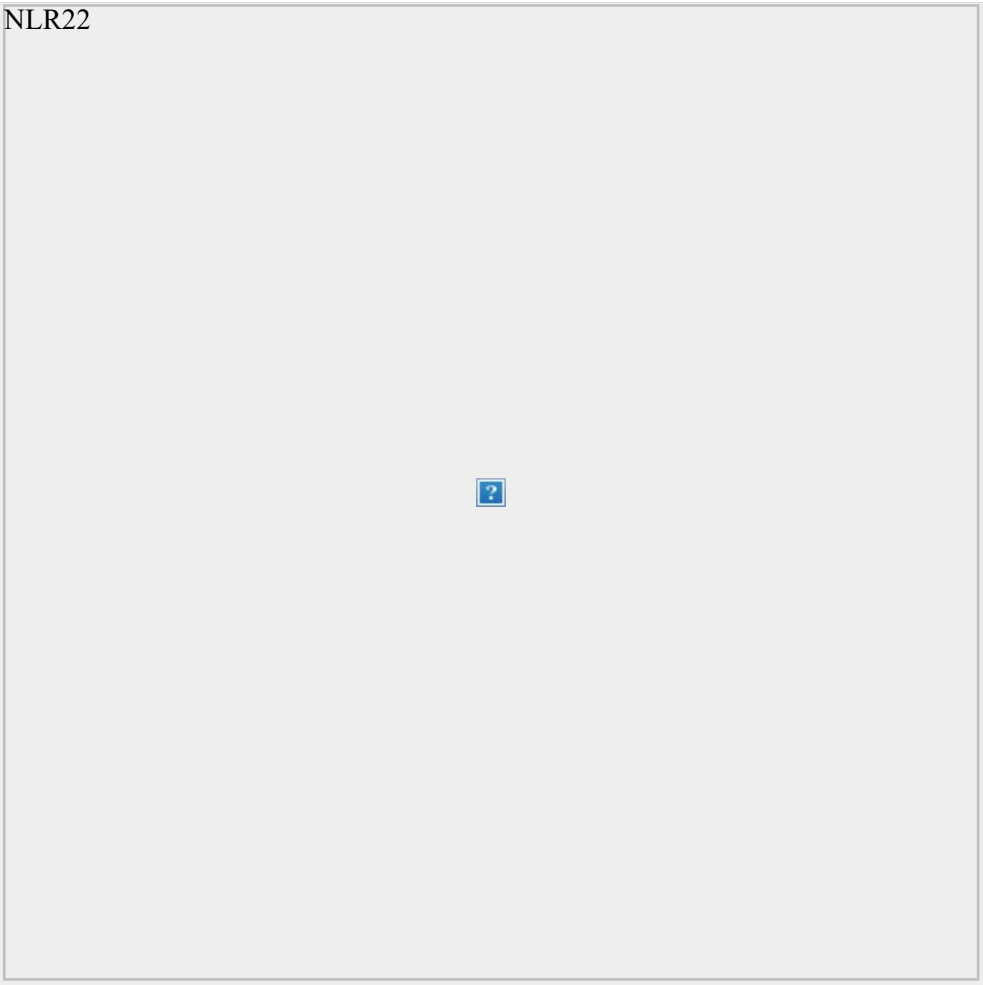


On Friday, April 1, 2022 Mayor LaToya Cantrell was joined by Earvin “Magic” Johnson and James 'Jim' Reynolds, founders of JLC Infrastructure, in several New Orleans neighborhoods to announce the rollout of the Smart City Initiative. This program will deliver broadband connectivity and a host of Smart City solutions that include internet service, to promote economic development and bridge the digital divide in underserved communities.

Community leaders were provided an opportunity to hear about and discuss the Smart City Initiative at three locations including G. W. Carver High School located in the Florida/Desire neighborhood, Joe W. Brown Park Recreation Center in New Orleans East, and at the Abundant Life Tabernacle Church in the St. Roch neighborhood. The Cantrell Administration’s goal is to bring these services to three initial New Orleans Recreation Development (NORD) Commission Centers across the city: the Joe W. Brown Park Recreation Center in District E, the Milne Recreation Center in District D and the Treme Center in District C.

Neighborhood Leaders Roundtable: Public Safety

NLR22



On Saturday, March 26, 2022 the Mayor's Neighborhood Engagement Office held its first-quarter Neighborhood Leaders Roundtable to discuss public safety. Guest speakers included New Orleans Police Department Superintendent Shaun Ferguson, New Orleans Fire Department Chief Roman Nelson, and Office of Criminal Justice Coordination Commissioner Tenisha Stevens. Over 200 neighborhood leaders attended the Roundtable.

CITY OF NEW ORLEANS SELECTED FOR U.S. ENERGY DEPARTMENT'S COMMUNITIES LOCAL ENERGY ACTION PROGRAM

NEW ORLEANS — The City of New Orleans today announced that it has been selected as one of 22 communities nationwide to receive support from the U.S. Department of Energy (DOE) Communities Local Energy Action Program (LEAP). This "first-of-its-kind" initiative is designed to help energy-overburdened communities take direct control of their clean energy future.

Based on a competitive application process, Communities LEAP will help the City further develop climate action strategies to develop distributed solar generation with battery storage and district-scale microgrids. The program will also provide long-term jobs and economic opportunities in green industries.

"The City of New Orleans is on the front lines of climate change and at the forefront of climate action," said **Jonathan Rhodes, Director of the Mayor's Office of Utilities**. "I am proud of our team for earning a place in the Communities LEAP program. This partnership with the federal government will help the City build a more resilient, sustainable and equitable New Orleans while providing opportunities in green infrastructure for all."

By receiving targeted technical assistance, LEAP will provide the City of New Orleans access to additional DOE and other federal government programs, including the $1.3 trillion Infrastructure Investment and Jobs Act funding in the near future. Participating in Communities LEAP not only reinforces the Cantrell Administration's Climate Action plan but also ensures that New Orleans meets its C40 Cities climate leadership commitments to community-led development and delivering bold climate action that benefits all residents equitably.

"This partnership with the DOE will build on our ongoing planning and investments in climate action," said **Rhodes**. "Through Communities LEAP, we will collaborate across

communities, industries and stakeholders to develop a citywide roadmap for coordinated climate action."

The transition to a clean energy economy lowers local air pollution and energy burdens while bringing billions of dollars in continued investments and generating good-paying jobs. In 2019, renewable energy investments in the U.S. reached $55 billion and clean energy jobs paid 25 percent more than the national median wage. Workers in the clean energy industry earned a median hourly wage of $23.89 compared to the national median wage of $19.14.

As one of only 22 selected communities, the City of New Orleans will work with DOE and its network of technical assistance providers, government and non-governmental partners, community-based organizations, utilities, as well as environmental justice, economic development, and equitable investment organizations to create roadmaps for clean energy modernization pathways.

CITY OF NEW ORLEANS SELECTED FOR U.S. ENERGY DEPARTMENT'S COMMUNITIES LOCAL ENERGY ACTION PROGRAM

NEW ORLEANS — The City of New Orleans today announced that it has been selected as one of 22 communities nationwide to receive support from the U.S. Department of Energy (DOE) Communities Local Energy Action Program (LEAP). This "first-of-its-kind" initiative is designed to help energy-overburdened communities take direct control of their clean energy future.

Based on a competitive application process, Communities LEAP will help the City further develop climate action strategies to develop distributed solar generation with battery storage and district-scale microgrids. The program will also provide long-term jobs and economic opportunities in green industries.

"The City of New Orleans is on the front lines of climate change and at the forefront of climate action," said **Jonathan Rhodes, Director of the Mayor's Office of Utilities**. "I am proud of our team for earning a place in the Communities LEAP program. This partnership with the federal government will help the City build a more resilient, sustainable and equitable New Orleans while providing opportunities in green infrastructure for all."

By receiving targeted technical assistance, LEAP will provide the City of New Orleans access to additional DOE and other federal government programs, including the $1.3 trillion Infrastructure Investment and Jobs Act funding in the near future. Participating in Communities LEAP not only reinforces the Cantrell Administration's Climate Action plan but also ensures that New Orleans meets its C40 Cities climate leadership commitments to community-led development and delivering bold climate action that benefits all residents equitably.

"This partnership with the DOE will build on our ongoing planning and investments in climate action," said **Rhodes**. "Through Communities LEAP, we will collaborate across

communities, industries and stakeholders to develop a citywide roadmap for coordinated climate action."

The transition to a clean energy economy lowers local air pollution and energy burdens while bringing billions of dollars in continued investments and generating good-paying jobs. In 2019, renewable energy investments in the U.S. reached $55 billion and clean energy jobs paid 25 percent more than the national median wage. Workers in the clean energy industry earned a median hourly wage of $23.89 compared to the national median wage of $19.14.

As one of only 22 selected communities, the City of New Orleans will work with DOE and its network of technical assistance providers, government and non-governmental partners, community-based organizations, utilities, as well as environmental justice, economic development, and equitable investment organizations to create roadmaps for clean energy modernization pathways.

Multiple City agencies will participate as a part of the Communities LEAP team, including the Office of Economic Development, Office of Utilities, Neighborhood Engagement Office, and Hazard Mitigation Office.

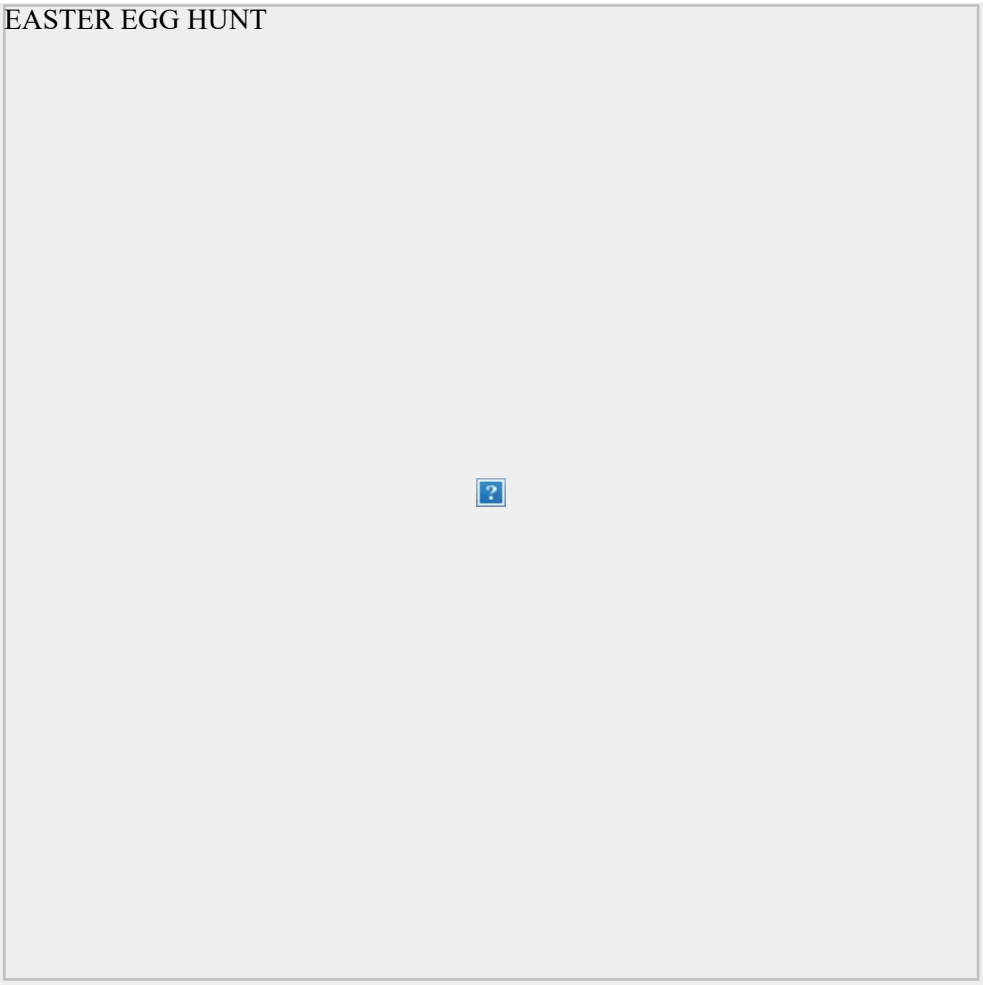
CITY ISSUES ZONING INTERPRETATION CHANGE FOR SHORT-TERM RENTALS

NEW ORLEANS – On Friday, April 1, 2022, The City of New Orleans Department of Safety and Permits released a zoning interpretation establishing changes to commercial short-term rental (STR) licensing. The Board of Zoning Adjustments (BZA) determined during its previous meeting that commercial STRs will now be considered a commercial use under the Comprehensive Zoning Ordinance.

The Department had previously considered commercial STRs to be a residential use in a primarily commercial area. This change means that effective immediately, they are now considered the same as all other commercial-use buildings. Applicants for new commercial STR permits will also have to apply for a building permit before they can be eligible for the STR permit. This will include a zoning and plan review of the structure for commercial use.

NORD: HOSTS NINTH EASTER CELEBRATIONS

EASTER EGG HUNT



The New Orleans Recreation Development (NORD) Commission hosted its ninth annual Easter Celebrations from 10 a.m. to 1 p.m. on Saturday, April 9 at the following parks:

- Joe W. Brown Park, 5601 Read Blvd. (New Orleans East)
- Lafitte Greenway, 1971 St. Louis St. (Mid-City)
- Morris F.X. Jeff, Sr. Park, 2529 General Meyer Ave. (Westbank)

Children of all ages were invited to join the Easter Bunny and brought their baskets for the annual egg hunt. Eggs were filled with candy and prizes, with distinct golden eggs available at each location containing special prizes and treats. Family-friendly activities included face painters, spacewalks and field games. Refreshments were also provided.

CORE

core

CORE is partnering with the East New Orleans Regional Library to provide free resource connections services! Community members can receive SNAP and Medicaid application assistance and learn more about available community resources.

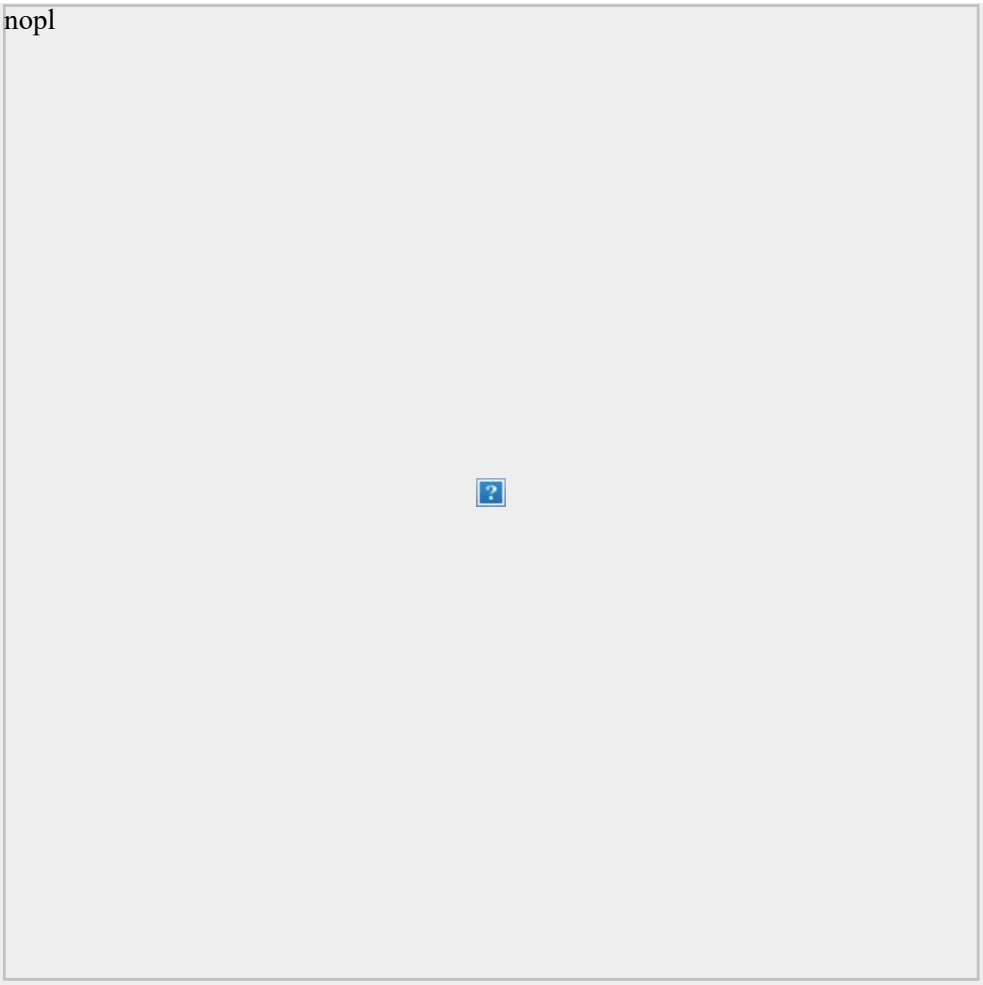
When: Fridays, 11am-2pm

Where: East New Orleans Regional Library, 5641 Read Blvd

New Orleans Public Library

Ready, Set, Bank!

nopl



The New Orleans Public Library's African American Resource Collection is hosting a 2-part virtual program to give you the tools and confidence to start banking online, Tuesday, April 26 and Thursday, April 28 at Lisa Aridis-Hendrix from Capital One Bank will guide you through every step of the process to help you manage your finances electronically. The Next American Migration: What Climate Change Means for the Future of Cities

Over the last several years, the number of Americans directly impacted by climate disasters has dramatically increased – and is only expected to grow in the coming years. For city staff, understanding how migration driven by climate change could impact their community is becoming critically important. Join NLC on April 21 to hear how local leaders are preparing for population changes resulting from these impacts, and what your city should consider.

communications@nola.gov
(504) 658-4945

MAYOR CANTRELL, “MAGIC” JOHNSON, AND JAMES 'JIM' REYNOLDS OF JLC INFRASTRUCTURE ANNOUNCE SMART CITY DEVELOPMENT INITIATIVE

NEW ORLEANS – Mayor LaToya Cantrell today was joined by Earvin “Magic” Johnson and James 'Jim' Reynolds, founders of JLC Infrastructure, in several New Orleans neighborhoods to announce the rollout of the Smart City Initiative. This program will deliver broadband connectivity and a host of Smart City solutions that include internet service, to promote economic development and bridge the digital divide in underserved communities.

"Since the beginning of my first term as Mayor, I have been laser-focused on bridging the digital divide in our city,” said **Mayor LaToya Cantrell**. "This remains a priority of my administration and is another step in developing programs like our 2018 Digital Equity Initiative and Computer Donation and Recycle Program, to mobilize broadband connectivity to underserved communities. These initiatives ensure equitable access to affordable internet coupled with wraparound digital services for residents that do not have broadband access, and we are excited to partner with Earvin 'Magic' Johnson and James 'Jim' Reynolds, founders of JLC Infrastructure, to continue the work started before the COVID-19 pandemic, and achieve our goal of building fiber infrastructure.”

Community leaders were provided an opportunity to hear about and discuss the Smart City Initiative at three locations including G. W. Carver High School located in the Florida/Desire neighborhood, Joe W. Brown Park Recreation Center in New Orleans East, and at the Abundant Life Tabernacle in the St. Roch neighborhood. The Cantrell Administration’s goal is to bring these services to three initial New Orleans Recreation Development (NORD) Commission Centers across the city: the Joe W. Brown Park Recreation Center in District E, the Milne Recreation Center in District D and the Treme Center in District C.

Many areas of the city lack the infrastructure necessary to provide high-speed internet services to residents. The impact of the COVID-19 pandemic heightened the need for connectivity, forcing families and workers to rely on broadband to work and attend school virtually for an extended amount of time. The City estimates that up to 50 percent of the households in certain communities do not have internet access. Today’s announcement and tour of participating neighborhoods introduces an initiative to expand broadband access through an investment of new technology infrastructure that will provide digital equity and improve City services.

The initiative will reduce connectivity costs, generate new revenue, advance economic

development, and enhance public safety through smart lighting, intelligent traffic management, smart water detection, and distribution of smart kiosks to deliver public information and City services. It includes the deployment of wireless and fiber infrastructure that addresses the digital divide and community needs through free services to the public.

“The City of New Orleans is committed to bridging the digital divide and building technology infrastructure for the next generation. To accomplish these goals, we are partnering with local and national leaders in Smart City development,” said **Kimberly LaGrue, Chief Information Officer for the City of New Orleans.** “We are proud to have JLC Infrastructure, a 100 percent minority-owned firm, Jacob’s Engineering and Qualcomm, come together with the City to build this much-needed infrastructure, provide affordable high-speed internet, and improve city services with Smart technologies for lighting, traffic, water management and more.”

This is the latest in Mayor Cantrell’s efforts to bring greater digital equity to New Orleans. In 2020, the City worked with Comp-U-Dopt, a nonprofit with a mission to provide technology access and education, to allocate hundreds of free, reconditioned computers for underserved youth. Additionally, through the City’s Computer Donation and Recycle Program, more than 300 computers were recycled from the Department of Sanitation, then refurbished and donated to residents. In 2018, Mayor Cantrell launched the Digital Equity Initiative.

"Digital equity has been at the forefront of the Cantrell Administration since day one.” said **Jonathan Rhodes, Director, Mayor's Office of Utilities.** “We know that one in four students do not have access to the Internet at home, and there are places in our community where 30-50 percent of residents do not have internet at home. Mayor Cantrell believes that everyone should have access to high-speed internet in order to deliver digital equity and opportunity to all communities."

March 31, 2022

Dear Mayor:

On behalf of NYU's Robert F. Wagner Graduate School of Public Service and the United States Conference of Mayors, we are delighted to invite you to attend the next **Mayors Leadership Institute on Smart Cities (MLISC) in New York City taking place May 4-6, 2022.**

Register

The Mayors Leadership Institute on Smart Cities is the preeminent forum for mayors to immerse themselves in smart cities work. The institute is an expert-facilitated and peer-driven learning environment that will equip you with a clear path forward for a major smart city initiative, a framework for citywide smart city opportunities, and equally important, a set of smart city guiding principles to improve your relationships with vendors and tech partners. Attendance is limited to twelve mayors (no staff), along with smart cities experts, and MLISC leadership partners. In order to encourage an open dialogue among participants, there will be no media or city staff present during the event. The MLISC will begin with a welcome reception and dinner on Wednesday, May 4. The working sessions will take place over the next two days and will conclude in the late afternoon on Friday, May 6.

All expenses related to your participation are covered by the Mayors Leadership Institute on Smart Cities. In return, we respectfully ask that you commit to the entire session or decline the invitation. Since participation is limited to twelve mayors, a prompt response is essential no later than April 8 if you wish to guarantee attendance. Once you accept the invitation, MLISC will contact you to arrange a Zoom interview to discuss your current and desired smart city initiatives as well as review the logistics of the session in detail. This will position participants to show up ready to work and to hear what others are doing in this space.

Register

We sincerely hope that you can take advantage of this exciting and unique opportunity. David Burns of the Conference staff will contact your office to follow up on this invitation, or, he can be reached at dburns@usmayors.org or (202) 861-6765.

Make sure you include Jim Reynolds too. He's no slouch — billionaire black investor.

Neighborhood Engagement Office

email

The deadline for registration for the Smart City Development events in New Orleans East and St. Roch has been EXTENDED to 5PM today.

The Mayor’s Neighborhood Engagement Office Presents: Smart City Development with Mayor Cantrell Earvin “Magic” Johnson & Jim Reynolds of JLC Infrastructure.

The City of New Orleans is committed to bridging the digital divide and building technology infrastructure for the next generation. To accomplish these goals, the city is partnering with local and national leaders in Smart City development. We are proud to include JLC Infrastructure, which is a 100% minority owned firm led by Earvin "Magic" Johnson and Jim Reynolds. Additional partners include Jacob’s Engineering and Qualcomm, who are coming together with the city to build infrastructure, provide affordable highspeed Internet, and improve city services with Smart technologies for lighting, traffic, water management and more.

New Orleans residents are invited to attend one of two sessions on Smart City Development, held on Friday, April 1st. **Only one registration will be allowed per person, as space is limited for the events. Registration for the events will close TODAY at 5PM, or until capacity is reached.**

Click here to attend the New Orleans East event, held at Joe Brown Park at 9:30AM on April 1st

OR

Click here to attend the St. Roch event, held at Abundant Life Tabernacle at 11:00AM on April 1st

---

About

The Mayor's Neighborhood Engagement Office is the City's permanent mechanism for public participation in government decision-making. We create opportunities for dialogue, information sharing, partnership, and action between City government and neighborhood residents and leaders.

March 18, 2022

Dear Mayor:

On behalf of NYU's Robert F. Wagner Graduate School of Public Service and the United States Conference of Mayors, we are delighted to invite you to attend the next **Mayors Leadership Institute on Smart Cities (MLISC) in New York City taking place May 4-6, 2022.**

Register

The Mayors Leadership Institute on Smart Cities is the preeminent forum for mayors to immerse themselves in smart cities work. The institute is an expert-facilitated and peer-driven learning environment that will equip you with a clear path forward for a major smart city initiative, a framework for citywide smart city opportunities, and equally important, a set of smart city guiding principles to improve your relationships with vendors and tech partners. Attendance is limited to twelve mayors (no staff), along with smart cities experts, and MLISC leadership partners. In order to encourage an open dialogue among participants, there will be no media or city staff present during the event. The MLISC will begin with a welcome reception and dinner on Wednesday, May 4. The working sessions will take place over the next two days and will conclude in the late afternoon on Friday, May 6.

All expenses related to your participation are covered by the Mayors Leadership Institute on Smart Cities. In return, we respectfully ask that you commit to the entire session or decline the invitation. Since participation is limited to twelve mayors, a prompt response is essential no later than April 8 if you wish to guarantee attendance. Once you accept the invitation, MLISC will contact you to arrange a Zoom interview to discuss your current and desired smart city initiatives as well as review the logistics of the session in detail. This will position participants to show up ready to work and to hear what others are doing in this space.

Register

We sincerely hope that you can take advantage of this exciting and unique opportunity. David Burns of the Conference staff will contact your office to follow up on this invitation, or, he can be reached at dburns@usmayors.org or (202) 861-6765.

When: Wednesday, March 16, 2022 3:00 PM-4:00 PM (UTC-06:00) Central Time (US & Canada).
Where: https://ignitecities.zoom.us/j/89820948885?pwd=WGFsSXYyTHdUSFR6T1N3dzhkR054Zz09&from=addon

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands

2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov

- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

George Burciaga is inviting you to a scheduled Zoom meeting.

Subject: TOMORROW JOIN MAYOR HANCOCK FOR OUR U.S. MAYORAL VITUAL ROUNDTABLE - REGISTER NOW
Date: Wednesday, March 16, 2022 11:30:37 AM
Attachments: USMVR-March-Twitter.png

EMAIL FROM EXTERNAL SENDER: DO NOT click links, or open attachments, if sender is unknown, or the message seems suspicious in any way. DO NOT provide your user ID or password. If you believe that this is a phishing attempt, use the reporting tool in your Outlook to send this message to Security.

Mayors and Special Guests, (please confirm you will attend)

On behalf of Mayor Hancock and our team, we thank you for agreeing to participate in our U.S. Mayoral Roundtable on Thursday, March 17th at 2pm CST. In preparation, below please find further details leading up to the Roundtable. We would also like to thank the African American Mayors Association for their support.

Event title: U.S. Mayoral Roundtable – Reinventing Our Future City
Topic: "Women Mayors Transforming Cities"

Participants:

- Mayor Regina Romero - City of Tucson
- Mayor Shawyn Patterson-Howard - City of Mount Vernon
- Mayor Michael B. Hancock - City of Denver (Host)

Roundtable event link: https://ignitecities.zoom.us/j/89201211533

March 17th at 2pm CST

- 2:00pm CST: Roundtable begins
- Questions can be received via the chat feature or email: askme@ignitecities.com
- 3:00pm CST: Roundtable concludes

Thnak you and we look forward to seeing you on Thursday!

Dear all,

The attachments are Tainan's exchange proposals from Tainan's Tourism, Culture, Education and Disaster Prevention departments. We are wondering if relevant departments of New Orleans City will be interested in these ideas. We are looking forward to getting feedback or proposals from New Orleans.

And, here we sightly amended the drafted agreement. Please let me know whether New Orleans would modify or add the content(ie. history background) as Roseline has mentioned at previous meeting.

See you all tomorrow on line.

Ichun

Dear Roseline,

Thank you for sending the MOU of Cape Coast and New Orleans as our reference. Before we revise the draft, to avoid the duplication of work, I want to make sure whether you would modify the content and get back to us since you've mentioned at the meeting.

We've asked the relative departments, such as education, culture and disaster prevention, etc., to provide possible exchange plans with New Orleans in a more concrete way. But I am afraid it would take some time to get their responses and we also need discuss with them after then. Is that possible we postpone the next meeting to Feb. 24, at the same time 6:30 pm?

Let's keep in touch.

Best,
Ichun

Pilot Agreement next steps.

Earlier this week Austin Wilty sent an updated version of the agreement in response to updates from MoCaFi.

In order to better manage version control of this 3-way agreement – our legal counsel has suggested the following below (**which differs from what is captured in the meeting notes**).

1. **MoCaFi** to respond to Austin's most recent version by this Friday Feb 11th . Include Mastercard and NOLA team in that response.
2. **NOLA** team to respond to MoCaFi comments by Feb 16th. Include Mastercard and Mocafi team in that response.
3. **Mastercard** to respond and prepare final draft for review by all on Feb 21st.

The Pilot Agreement is a critical part of the launch but, being a 3-way agreement, managing it is a little more complex than normal. Please ensure your legal teams are aware of and aligned with these next steps detailed above.

Many thanks
Paul

Subject: RE: NOLA Multi-Function ID/City Card Project Calls

Dear All,

Here are some updates on the UBI Access card launch scheduled for next week (3/3):

- 125 UBI cards with Access functionality are expected to arrive at NOLA by COB today
- MA team met with NORD team (Jahanna, Ajia and Brandi) yesterday to successfully test MoCaFi payment card with Access, which worked seamlessly with NORD's account management system (Vermont Systems).
- MA team will be working with NORD this week to update security software at all 16 NORD locations
- NFC reader sticker design will be finalized today (and printed next Mon) to be placed on all NFC readers (see DRAFT below)
- Legal teams are working feverishly to get Pilot Agreement across the finish line before launch next week
- NORD and MoCaFi teams are ready to launch next week

@Jack, please add to anything I might have missed.

Thank you.

Steve

Dear All,

Here are some updates on the UBI Access card launch scheduled for next week (3/3):

- 125 UBI cards with Access functionality are expected to arrive at NOLA by COB today
- MA team met with NORD team (Jahanna, Ajia and Brandi) yesterday to successfully test MoCaFi payment card with Access, which worked seamlessly with NORD's account management system (Vermont Systems).
- MA team will be working with NORD this week to update security software at all 16 NORD locations
- NFC reader sticker design will be finalized today (and printed next Mon) to be placed on all NFC readers (see DRAFT below)
- Legal teams are working feverishly to get Pilot Agreement across the finish line before launch next week
- NORD and MoCaFi teams are ready to launch next week

@Jack, please add to anything I might have missed.

Thank you.

Steve

Below is the information I could find from past briefs regarding the BR passenger line, in case it is helpful to comms. Laura, I think we'll need a more up-to-date summary of developments on the NO-BR rail initiative for TP's. @Mayor's Communications Team will be able to confirm after Beau's imminent Tuesday briefing.

UPT First Floor Master Plan – NOBC anticipates that with new rail services connecting New Orleans to Baton Rouge and to Mobile, UPT will experience an increase in patronage from 200,000 to 250,000 rail passengers annually. This does not include increased bus travel. RTA may also wish to run additional bus lines through UPT. Bearing this future development in mind, NOBC has set the terms of its leases such that NOBC may terminate them in 2022. This gives NOBC flexibility with respect to redesigning and planning the first floor amenities to accommodate the needs of the increased patronage (e.g., docking stations, a rental car tenant, etc.).

Hey Team, just following up on the below. If you have information related to this discussion (EV infrastructure and expansion, reconnecting communities, transit expansion, and funding formula and direct to locality funding concerns), please get them over to Matthew today to be included in the brief.

Additionally, I know comms will need this information to craft TP's for the Mayor. Bullet points on the above topics are helpful and can be inserted into the brief AND be used to craft TP's. Please get these details over to our team ASAP!

Thanks everyone!

My rec is yes, but ask the Mayor given the season we are in. I think this is an opportunity to speak to the push we are about to make on the Baton Rouge to New Orleans passenger rail. We are in early steps on that project (very early) but can speak to what it will mean to the City and region.

Dear Mayor LaToya Cantrell and Staff,

I hope all is well! I am Antonio Scott, Senior Manager of Programs with the African American Mayors Association (AAMA). In this role, I serve as the primary manager of AAMA's three signature programs and help coordinate general policy programming.

On behalf of the African American Mayors Association (AAMA) President, Mayor Sylvester Turner (Houston, TX), and Board of Trustees, it is our honor to extend an invitation to Mayor Cantrell to participate as a panelist for a **special conversation with the Department of Transportation Secretary Pete Buttigieg**. The virtual panel conversation will take place on **Wednesday, February 23, 2022, from 4:00 pm EST to 5:00 pm ET via Stream Yard**. This special conversation, timed to happen during Black History Month, will feature a discussion with Black mayors regarding transportation and infrastructure policies and initiatives. The panel conversation will mainly focus on these policy points: EV infrastructure and expansion, reconnecting communities, transit expansion, and funding formula and direct to locality funding concerns.

Below is a tentative agenda of the virtual engagement

- 3:50 pm ET - Login for audio and sound check
- 4:00 pm ET - Phyllis Dickerson (AAMA CEO) opens the session
- 4:02 pm ET - Mayor Sylvester Turner (Houston, TX) offers opening remarks and introduces the Secretary
- 4:07 pm ET - Secretary Pete Buttigieg delivers opening remarks
- 4:12 pm ET - Mayor Turner introduces the panel of mayors
- 4:50 pm ET - Mayor Turner wraps up the panel conversation
- 4:52 pm ET - Secretary Buttigieg offers closing thoughts
- 4:57 pm ET - Mayor Turner thanks participants and attendees, close session with brief remarks
- 5:00 pm ET - End of event

Invited Panelists: *Mayor Sylvester Turner (Houston, TX), Mayor Frank Scott, Jr. (Little Rock, AR), Mayor Shawyn Patterson-Howard (Mount Vernon, NY), Mayor Steven Reed (Montgomery, AL), Mayor LaToya Cantrell (New Orleans, LA), Mayor Vi Lyles (Charlotte, NC), and Mayor Byron Brown (Buffalo, NY)*

Thank you for your time and consideration. Upon confirmation of the mayor's participation, the AAMA team will send you a full agenda, run of the show, script, and panel questions in advance of the engagement. Please let me know if there is any clarification or additional information I can provide. I hope to hear from you soon. If you have any questions, please do not hesitate to contact me via email at antonio@ourmayors.org.

Best,

Antonio

On Feb 10, 2022, at 4:05 AM, Kellett, Paul <Paul.Kellett@mastercard.com> wrote:

Hi All,

Just read through the meeting notes and wanted to make one clarification around the Pilot Agreement next steps.

Earlier this week Austin Wilty sent an updated version of the agreement in response to updates from MoCaFi.

In order to better manage version control of this 3-way agreement – our legal counsel has suggested the following below (**which differs from what is captured in the meeting notes**).

1. **MoCaFi** to respond to Austin's most recent version by this Friday Feb 11th . Include Mastercard and NOLA team in that response.
2. **NOLA** team to respond to MoCaFi comments by Feb 16th. Include Mastercard and Mocafi team in that response.
3. **Mastercard** to respond and prepare final draft for review by all on Feb 21st.

The Pilot Agreement is a critical part of the launch but, being a 3-way agreement, managing it is a little more complex than normal. Please ensure your legal teams are aware of and aligned with these next steps detailed above.

Many thanks
Paul

3. **Mastercard** to respond and prepare final draft for review by all on Feb 21st.

The Pilot Agreement is a critical part of the launch but, being a 3-way agreement, managing it is a little more complex than normal. Please ensure your legal teams are aware of and aligned with these next steps detailed above.

Many thanks

Importance: High

Hi All,

Just read through the meeting notes and wanted to make one clarification around the Pilot Agreement next steps.

Earlier this week Austin Wilty sent an updated version of the agreement in response to updates from MoCaFi.

In order to better manage version control of this 3-way agreement – our legal counsel has suggested the following below (**which differs from what is captured in the meeting notes**).

1. **MoCaFi** to respond to Austin's most recent version by this Friday Feb 11th . Include Mastercard and NOLA team in that response.
2. **NOLA** team to respond to MoCaFi comments by Feb 16th. Include Mastercard and Mocafi team in that response.
3. **Mastercard** to respond and prepare final draft for review by all on Feb 21st.

The Pilot Agreement is a critical part of the launch but, being a 3-way agreement, managing it is a little more complex than normal. Please ensure your legal teams are aware of and aligned with these next steps detailed above.

Many thanks
Paul

Subject: RE: NOLA Multi-Function ID/City Card Mtg Recap
Importance: High

Hi All,

Just read through the meeting notes and wanted to make one clarification around the Pilot Agreement next steps.

Earlier this week Austin Wilty sent an updated version of the agreement in response to updates from MoCaFi.

In order to better manage version control of this 3-way agreement – our legal counsel has suggested the following below (**which differs from what is captured in the meeting notes**).

1. **MoCaFi** to respond to Austin's most recent version by this Friday Feb 11th . Include Mastercard and NOLA team in that response.
2. **NOLA** team to respond to MoCaFi comments by Feb 16th. Include Mastercard and Mocafi team in that response.
3. **Mastercard** to respond and prepare final draft for review by all on Feb 21st.

The Pilot Agreement is a critical part of the launch but, being a 3-way agreement, managing it is a little more complex than normal. Please ensure your legal teams are aware of and aligned with these next steps detailed above.

Many thanks
Paul

+ Arash K.

Hi All,

Please see attached what I was going to share on today's call. Please take a look as we plan to launch the UBI card with NORD Access on 2/15-- for example, a couple of action items for Kim L.

Final tasks to prepare for pilot launch

Task	Owner	Due date	Comments
Pilot Agreement	Mastercard	Urgent	MA updating recent additional comments from Austin
EZA testing with RecTrac	NORD (MA)	Urgent	Kim L. following up on additional resource in NORD as Brandi not available
EZA staff training with NORD	NORD (MA)	Urgent	MA is working with NORD, but again, need Kim L. to identify Brandi back-up
UAT / Production test	MoCaFi / IDEMIA	Feb 4	IDEMIA to ship to NORD for testing at readers
Start issuance of 125 cards	MoCaFi	Feb 15	NORD to issue cards (need validation)
Promotional "one pager"	MoCaFi (MA)	Feb 4	
FAQ for cardholders	MoCaFi	Feb 7	MoCaFi reviewing internally
Data Privacy disclosures	MoCaFi	Feb 8	MoCaFi reviewing internally with legal / Sunrise
Cardholder support processes	MoCaFi	Feb 9 (dependent on NORD training)	MoCaFi to "own" and review with Mastercard

Thank you.

Steve

Team NOLA,

I am canceling todays meeting. We have a few people out and severe weather happening in a few of our cities.

I know we are making progress so please feel free to provide any updates via email.

Here are key areas:

1. UBI

2. Access
3. FTNO
4. Muni ID
5. City Employee Program
6. And the General City Wide Program

Thank you team!

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

Good morning,

This week and next week are pretty tough, as our whole team are working on coordinating public safety for Mardi Gras. At this time, we have the following times open:

- Friday, Feb 11, 11 AM – 1 PM
- Monday, Feb 14, 2 -3 PM

Do any of these times work for you all?

Anna

Thanks so much for bringing this back up, Steve. I know members of Collin's team -- Shalini and Anna -- chatted with the MasterCard/MoCafi team post-Ida about ways these cards can help with disaster response. I think it would be great for us to reconvene this conversation given the other ways we are using these cards throughout the city and city government.

Collin, would you and your team be willing to hop on a call about this next week or so?

Best wishes,

Hello Colin,

Hope January is off to a good start.

I want to follow up on our last meeting we had on the NOLA City Key concept (our first one back in Aug 2019 to talk about natural disaster emergency disbursement use case), and run an idea by you that our team has around natural disaster relief.

As you know, the City Key (Crescent City) program was launched last summer for emergency disbursements for Hurricane IDA and returning residents, as well as the UBI program that will be launched next month.

We are currently working with our insurance partners and government agencies to offer solutions that build greater resilience for cities by focusing on making disaster funds and claims payments available at or even before a disaster occurs.

We thought this would be timely given that the hurricane planning season is about to commence.

Would you and your team be available next week for a quick review of the idea? If it is of further interest, we can then discuss next steps to coordinate the right design sessions.

Thank you, and look forward to connecting again.

Steve

Thanks so much for bringing this back up, Steve. I know members of Collin's team -- Shalini and Anna -- chatted with the MasterCard/MoCafi team post-Ida about ways these cards can help with disaster response. I think it would be great for us to reconvene this conversation given the other ways we are using these cards throughout the city and city government.

Collin, would you and your team be willing to hop on a call about this next week or so?

Best wishes,

Hello Colin,

Hope January is off to a good start.

I want to follow up on our last meeting we had on the NOLA City Key concept (our first one back in Aug 2019 to talk about natural disaster emergency disbursement use case), and run an idea by you that our team has around natural disaster relief.

As you know, the City Key (Crescent City) program was launched last summer for emergency disbursements for Hurricane IDA and returning residents, as well as the UBI program that will be launched next month.

We are currently working with our insurance partners and government agencies to offer solutions that build greater resilience for cities by focusing on making disaster funds and claims payments available at or even before a disaster occurs.

We thought this would be timely given that the hurricane planning season is about to commence.

Would you and your team be available next week for a quick review of the idea? If it is of further interest, we can then discuss next steps to coordinate the right design sessions.

Thank you, and look forward to connecting again.

All-
Tomorrow we will send the test file to Idemia for the final UAT. I will reply back to the group once I know that test cards have been created. After sign-off on this round of testing, the EZAccess feature will be promoted to production and cards can be ordered for delivery to Jack. The promotion to production typically takes about a week and we are doing all we can to keep things moving quickly through the stages.

FYI-Idemia has recently been experiencing production delays due to significant staffing shortages as a result of Covid-19 and severe weather conditions at several of their processing locations. Please know that we, in partnership with Idemia, are doing all we can to keep this program moving forward and on schedule. We appreciate your patience as we navigate the challenges caused by these events.

Please feel free to add anyone who I may have missed on this communication.

Thank you,
Sondra

Attachments:	Appendix-E-Contract-Attachment-Requirements-Checklists (7).docx AFFIDAVIT OF COMPLIANCE WITH HIRING REQUIREMENTS - 2021.pdf Tax Clearance Form.pdf Expediency Form and Interoffice Memo.docx image001.png DraftDemonstrationAgreement_CityKeyAccessPilot_Mastercard_MoCaFi_Consolidated_(APW 1.18.2022)(4).docx

---

Acknowledging receipt. Thanks, Paul.

Attached please find an updated redline for MoCaFi and Mastercard to review and redline.

As we discussed on our call today, the City can initiate our routing process using the draft agreement while we finalize negotiations. That said, we will need the following supporting documents from both Parties (see list below).

1. Proof of Good Standing from the Louisiana Secretary of State's Website;
2. Proof of Signatory Authority (obtained from the Contractor);
3. Ban-the-Box Affidavit (see form attached)(note: the Ban-the-Box Ordinance passed City Council after the CAO Policy/Appendix was created, so you will NOT find said Affidavit listed as a supporting document in Appendix "E");
4. Tax Clearance Form (see attached)(note: instructions are contained on form, but generally speaking, the Contractor will complete the top portion and the City's Routing Department will be responsible for obtaining signatures from Treasury, Revenue, and Finance); and
5. Certificate of Insurance (obtained from the Contractor and must match the minimum insurance requirements in the Agreement. Attached please find an updated draft containing the increased limits referenced on today's call.

Next, please be advised that the Parties will need to take advantage of the City's Expediency Process to have a chance of attaining a fully executed Agreement by 2.4.2022. The City Department who will be responsible for routing the Agreement will need to complete the attached Expediency Form and Interoffice Memo (Note: no action is needed by either Party with respect to the Expediency Form and Memo).

Lastly, one thing I failed to request on today's call is the separate agreement with MoCaFi governing the financial capabilities of the IRCs used in the solution referenced in Section 2 of Exhibit "A" to the Agreement. Can you please send us a copy of this agreement asap for our review?

Please know that I am available if anyone has any questions or needs additional information.

Kind regards,

Austin P. Wilty

Hi All,

I spoke with our promotions legal team and their advice was that offering all people a smaller incentive is the better option after all. I think this works out to $120 for any participant that takes up the incentive and provides the required feedback.

The reasons for this being the better option are:

1. It is no longer a competition and therefore is very simple to offer and manage. Any T&C's needed would be very straightforward and quick to create.
2. We wouldn't need to worry about proving who the first 50 people were if there was any kind of dispute.
3. Many people would assume they were too late to be amongst the first 50 to respond – so wouldn't apply in the first place meaning this option may work against us.
4. Paying all people for their feedback is also cleaner from a legal perspective as it helps justify our rights to capture and learn from the feedback that anyone gives

As a next step, the Mastercard team will work with our legal team to draft a statement to add to the pilot agreement that reflects this offer of $120 to anyone who agrees to provide the feedback being sought.

As soon as we have that created – we will send it on and add it to the existing pilot agreement for all to review.

Regards
Paul

Importance: High

+ Jack K (NOLA UBI Program Lead), Nisha P (MA Counsel)

Hello All,

Please find summary/next steps from our call this morning:

- Earliest launch date of UBI cards is on Tue, 2/8, pending MoCaFi's delivery of the cards on Mon, 2/7
    - Jack provided the list of 125 to MoCaFi last Fri, 1/14
    - We are looking for NOLA to sign Pilot Agreement by Fri, 2/4

- Austin to connect with Jack K. on funding source (from FTNO) and also $300/person incentive for 50 UBI's recipient's time to be part of customer feedback panel.
    - NOLA to consider pros/cons of $120 for 125 people vs. $300 for 50 people
    - In parallel, MA (Paul K.) to share MA's protocol on promotions, incentives, PII, etc.
- MA (Nisha, Amalia) legal to review Chapter 147 on PII, and incorporate relevant info into Pilot Agreement

Please add to anything I might have missed.

Thanks.

Hi Austin,

It's taken a little while longer than we planned for but attached is the updated version of the pilot agreement you previously reviewed that refers to the NORD Access service we are testing as part of the NOLA Guaranteed Income pilot with 125 cardholders which is likely to launch early / mid January. (Steve / Madye - please correct me if I'm confusing the name of this program)

This version of the agreement has your feedback, Mocafi's feedback, and Mastercard's responses to the feedback all included.

We'll need you to review this version now and let us know if all is sufficient to proceed in time for the launch date being proposed by the NOLA team (early/mid January).

Let us know if you have any further questions.

Kind regards,
Paul

Good catch, I should've said Tuesday (too funny).

Sorry team, I was driving and Siri was typing.

I was wondering if everyone is available on Tuesday of next week at 10am central.

Thx -

George,

I appreciate the enthusiasm; however, is this a meeting we have to do today? I already have plans for this evening and would like some more time to discuss how we might position ourselves with Walmart. Can move this call to next week, given the lateness of the request and the hour.

If you decide to have the meeting, I cannot participate. Apologies.

Best,

Wole

+Arash

Great call a few min ago to refine the 1-pager. I think we made great progress. A few next steps:

- Michelle to send additional images to reflect senior citizens
- MoCaFi to send an image of the card to be used for the NORD pilot (IRC) - @Allison, Stanley, can you share with Jeannie H on this email?
- Lina to confirm survey logistics for $300 incentive
- Lina to work with Brandy to ensure NFC readers are also installed at all indoor NORD pools
- Jeannie to share final draft by tomorrow- Allison to share that version with Sunrise bank

Let me know if I missed anything. Thanks.

Dear Team, as discussed on the call, I'm attaching a DRAFT 1-pager that needs to be updated, given that we'll have a new set of 125 UBI recipients (~80 senior citizens, and ~45 youth).

I'll set up a call with Jack and Michelle (NORD Marketing), and folks from the MA side to review and update, reflecting this, and new process, etc.

@Allison, I know you want to share with your stakeholder, but we'll have an updated version by end of week.

Thanks.

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov

+Arash

Great call a few min ago to refine the 1-pager. I think we made great progress. A few next steps:

- Michelle to send additional images to reflect senior citizens
- MoCaFi to send an image of the card to be used for the NORD pilot (IRC) - @Allison, Stanley, can you share with Jeannie H on this email?
- Lina to confirm survey logistics for $300 incentive
- Lina to work with Brandy to ensure NFC readers are also installed at all indoor NORD pools
- Jeannie to share final draft by tomorrow- Allison to share that version with Sunrise bank

Let me know if I missed anything. Thanks.

Steve

Dear Team, as discussed on the call, I'm attaching a DRAFT 1-pager that needs to be updated, given that we'll have a new set of 125 UBI recipients (~80 senior citizens, and ~45 youth).

I'll set up a call with Jack and Michelle (NORD Marketing), and folks from the MA side to review and update, reflecting this, and new process, etc.

@Allison, I know you want to share with your stakeholder, but we'll have an updated version by end of week.

Thanks.

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally

recognized

1. Weekly update required

4. Determine a plan for executing on the creation of the City ID that is federally recognized

    1. Plan is required

5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov

Dear Team, as discussed on the call, I'm attaching a DRAFT 1-pager that needs to be updated, given that we'll have a new set of 125 UBI recipients (~80 senior citizens, and ~45 youth).

I'll set up a call with Jack and Michelle (NORD Marketing), and folks from the MA side to review and update, reflecting this, and new process, etc.

@Allison, I know you want to share with your stakeholder, but we'll have an updated version by end of week.

Thanks.

+ Kimberly, Art

Happy New year.

Want to escalate this Pilot Agreement up into your inbox. We have a target date as early as 1/18 for launch.

Please review and let us know if you have any questions re: approval and signature, so this does not impede our NORD access launch date.

Thanks.

Subject: Updated Pilot Agreement for NORD Access Pilot with 125 cardholders

Hi Austin,

It's taken a little while longer than we planned for but attached is the updated version of the pilot agreement you previously reviewed that refers to the NORD Access service we are testing as part of the NOLA Guaranteed Income pilot with 125 cardholders which is likely to launch early / mid January. (Steve / Madye - please correct me if I'm confusing the name of this program)

This version of the agreement has your feedback, Mocafi's feedback, and Mastercard's responses to the feedback all included.

We'll need you to review this version now and let us know if all is sufficient to proceed in time for the launch date being proposed by the NOLA team (early/mid January).

Let us know if you have any further questions.

Kind regards,
Paul

Hello Shakira,

Thank you for the follow up. I deeply apologize for any delay. Is it possible that we can have until after the holiday to review the document. My team has been having back to back events. Please let me know if that will work for you.

Regards,

[Warning: External email]

Good morning all!

It was a pleasure meeting with all of you, we've identified some follow-up questions that we're hoping you can shed some insight on. We remembered that although it was before both of you filled your current roles with the CityKey, there was a community engagement process and report completed to initiate the program. Do you all have any records, recommendations, or tips from that period we could reference as we design ours?

Here's a document with further questions, please feel free to type in thoughts and notes or we can even schedule another meeting to discuss briefly.

Good news, the Cox protest of the Smart City Award was denied and now it's time to move forward with the CEA. Since this will be a Council Process I'd really like to enlist Art's help in getting this done.

We have a standing internal Smart City/WiFi call on Thursdays at 3pm. I'll add Art for the time being so we can talk about how to work on this with Council.

And Art I'll give you a call this week to get you some more background.

Thanks all,

Hello Nisha, Amalia,

MoCaFi provided feedback on our weekly call yesterday which focused mainly on the scope of the 125 GIP recipients-- they want to ensure other NOLA City Key programs are not part of this pilot.

Can you address in the version MoCaFi shared yesterday?

Assuming we can address this soon, and other matters, when call all the parties be ready for signature?

Thank you.

Good morning.
[Allison Cormier is included in this response to ensure her inclusion going forward]

My apologies for responding today, understanding that a one-day slippage under our tight timeline can have cascading effects.

Please find attached the revisions/comments from MOCaFi's Legal Counsel Henry Thuman.

There are additional outstanding questions, listed below:

Page 1, second comment string:

Austin P Wilty:

Please identify whether there is a separate agreement in place relative to this Guaranteed Income Pilot?

As discussed, there is currently a CEA in place between the City and MoCaFi where MoCaFi committed to providing 120 cards, specifically for aid and support of the needy (Women in Need of Care and Opportunity Youth). Please confirm that those 120 cards are not connected to these 125 cards.

As it relates to this Product Demonstration Agreement, please advise on the following:

- Who are the 125 Guaranteed Income participants?
- How are/were they selected?
- Who selected them?
- What is the source of the funds?

Kellet, Paul

The 120 cards and the 125 cards are separate programs. This agreement refers only to the 125 card program.

- The 125 participants are being chosen by the city of NOLA whereby participants volunteer to sign up for the pilot.
- The Government is providing the funds that MoCaFi loads onto the cards: please indicate if this is not the case and what the funding process is

Paragraph 31:

31. Non-Solicitation Statement. Mastercard and MoCaFi swear that they have not employed or retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement. Mastercard and MoCaFi have not paid or agreed to pay any person, other than a bona fide employee working for it, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from this Agreement.

As George Burciaga and IgniteCities are involved in this project, have they received any fees related to the project?

Exhibit B:

MoCaFi cannot locate City Key Access Pilot Proposal.

My apologies for responding today, understanding that a one-day slippage under our tight timeline can have cascading effects.

Please find attached the revisions/comments from MOCaFi's Legal Counsel Henry Thuman.

There are additional outstanding questions, listed below:

Page 1, second comment string:

Austin P Wilty:

Please identify whether there is a separate agreement in place relative to this Guaranteed Income Pilot?

As discussed, there is currently a CEA in place between the City and MoCaFi where MoCaFi committed to providing 120 cards, specifically for aid and support of the needy (Women in Need of Care and Opportunity Youth). Please confirm that those 120 cards are not connected to these 125 cards.

As it relates to this Product Demonstration Agreement, please advise on the following:

- Who are the 125 Guaranteed Income participants?
- How are/were they selected?
- Who selected them?
- What is the source of the funds?

Kellet, Paul

The 120 cards and the 125 cards are separate programs. This agreement refers only to the 125 card program.

- The 125 participants are being chosen by the city of NOLA whereby participants volunteer to sign up for the pilot.
- The Government is providing the funds that MoCaFi loads onto the cards: please indicate if this is not the case and what the funding process is

Paragraph 31:

31. Non-Solicitation Statement. Mastercard and MoCaFi swear that they have not employed or retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement. Mastercard and MoCaFi have not paid or agreed to pay any person, other than a bona fide employee working for it, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from this Agreement.

As George Burciaga and IgniteCities are involved in this project, have they received any fees related

to the project?

Exhibit B:

MoCaFi cannot locate City Key Access Pilot Proposal.

Good morning.
[Allison Cormier is included in this response to ensure her inclusion going forward]

My apologies for responding today, understanding that a one-day slippage under our tight timeline can have cascading effects.

Please find attached the revisions/comments from MOCaFi's Legal Counsel Henry Thuman.

There are additional outstanding questions, listed below:

Page 1, second comment string:

Austin P Wilty:

Please identify whether there is a separate agreement in place relative to this Guaranteed Income Pilot?

As discussed, there is currently a CEA in place between the City and MoCaFi where MoCaFi committed to providing 120 cards, specifically for aid and support of the needy (Women in Need of Care and Opportunity Youth). Please confirm that those 120 cards are not connected to these 125 cards.

As it relates to this Product Demonstration Agreement, please advise on the following:

- Who are the 125 Guaranteed Income participants?
- How are/were they selected?
- Who selected them?
- What is the source of the funds?

Kellet, Paul

The 120 cards and the 125 cards are separate programs. This agreement refers only to the 125 card program.

- The 125 participants are being chosen by the city of NOLA whereby participants volunteer to sign up for the pilot.
- The Government is providing the funds that MoCaFi loads onto the cards: please indicate if this is not the case and what the funding process is

Paragraph 31:

MoCaFi to turn the next version around by Wed, 12/1, to all parties on the email trail.

NOLA & Mastercard:

- For the sake of document control, the ask is that NOLA and Mastercard do not mark up the agreement further, but are receiving a copy of the same to review /read to note MoCaFi's amendments.

Upon receipt of MoCaFi's mark up, all parties will review and attend a walk through call, whereby we can finalize our positions and the agreement.

We are working toward to have this completed by 12/10 for the NORD access launch.

Thank you.

Have a nice Thanksgiving holiday.

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the

following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

Dear All,

Please find attached the latest draft of the Pilot Agreement, which incorporates both MoCaFi's edits, NOLA's edits, and MA's input.

The ask from both MoCaFi and NOLA is as follows:

MoCaFi:

- To review the Pilot Agreement which has NOLA's amendments.
- MoCaFi to turn the next version around by Wed, 12/1, to all parties on the email trail.

NOLA & Mastercard:

- For the sake of document control, the ask is that NOLA and Mastercard do not mark up the agreement further, but are receiving a copy of the same to review /read to note MoCaFi's amendments.

Upon receipt of MoCaFi's mark up, all parties will review and attend a walk through call, whereby we can finalize our positions and the agreement.

We are working toward to have this completed by 12/10 for the NORD access launch.

Thank you.

Have a nice Thanksgiving holiday.

Dear friends,

Before the Thanksgiving holiday is here, I would like to say, thank you. We are filled with gratitude and thankful for the opportunity to work closely with you (all of you). Our intent and purpose is clear, we are working to **recover, reimagine and rebuild** our cities to support ALL families in every community.

While the world has definitely changed and our vulnerable families have had the hardest time, together we have pushed forward. Our work together has already created a significant impact across the country and we promise to work even harder in 2022.

So I pause to say, **Happy Thanksgiving** and to ensure you know we are grateful for your support and friendship!

Blessings to you and your family,

Was great getting to connect this morning! Thanks for your time.

I wanted to connect you with our partners on the Crescent City Card - Stanley, Allison and Steve Tae. Stanley and Allison work for Mocafi and Steve works for MasterCard. All have been amazing in helping us set up the card and optimizing it's functionality.

Stanley, Allison and Steve -

Please meet Anna and Shalini. They are from our Homeland security department (Nola Ready) and are the heroes on the ground that shepard the city and her people through weather and other crisis events. Today, I told them about the card and there was interest in exploring how it could be used to assist their work during disasters.

Maybe we can set up a call to explore what that application could look like for them and what would be helpful. I'll leave it to Allison to help coordinate a call.

All the best,

+MA marketing, comms, innovation teams & Michelle Thomson and Jocelyn Johnson (NORD) team.

As a follow-up to my brief out on Wed, I connected with our internal marketing/comms team this morning, and we're all on board to support NOLA in creating a simple doc to help the GIP team (Jack, et. al.) the what/how on access to NORD rec centers.

I'd like to know if POCs from the GIP team (Jack? other?) and MoCaFi (Allison? Stanley? other?) can join a quick call on Mon, 11/22 to align on objectives, timeline, etc.

Please let me know availability asap.

Also, @Michelle Thomson (NORD), we're looking for NORD marketing materials to incorporate some content into our 1-pager that highlights the NORD rec center, for those who might not know much about NORD rec centers (access to b-ball courts, workout equip, locations, etc.). Can you share any materials to me directly? Your content will support content on outreach communications, and increase usage/adoption.

Thanks.

Steve

Subject: RE: NOLA Multi-Function ID/City Card Project Calls

Dear Team, as mentioned on our call today, please find a summary of the focus group study that was

completed last week, which provides feedback/takeaways on perceptions of a prepaid card with access functionality. As mentioned, this will help inform the marketing materials when onboarding the 125 GIP recipients to make sure: 1) they know the access functionality to NORD rec centers, and 2) to increase access adoption.

Thanks.

Steve

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands

2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov

- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

Subject: RE: NOLA Multi-Function ID/City Card Project Calls

Dear Team, as mentioned on our call today, please find a summary of the focus group study that was completed last week, which provides feedback/takeaways on perceptions of a prepaid card with access functionality. As mentioned, this will help inform the marketing materials when onboarding the 125 GIP recipients to make sure: 1) they know the access functionality to NORD rec centers, and 2) to increase access adoption.

Thanks.

Steve

Subject: NOLA Multi-Function ID/City Card Project Calls

When: Wednesday, November 17, 2021 3:00 PM-4:00 PM (UTC-06:00) Central Time (US & Canada).
Where: https://ignitecities.zoom.us/j/89820948885?pwd=WGFsSXYyTHdUSFR6T1N3dzhkR054Zz09&from=addon

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+

    - Manage card creation and production
    - Manage follow-up card issues after distribution

- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

Please meet Anna and Shalini. They are from our Homeland security department (Nola Ready) and are the heroes on the ground that shepard the city and her people through weather and other crisis events. Today, I told them about the card and there was interest in exploring how it could be used to assist their work during disasters.

Maybe we can set up a call to explore what that application could look like for them and what would be helpful. I'll leave it to Allison to help coordinate a call.

+MA marketing, comms, innovation teams & Michelle Thomson and Jocelyn Johnson (NORD) team.

As a follow-up to my brief out on Wed, I connected with our internal marketing/comms team this morning, and we're all on board to support NOLA in creating a simple doc to help the GIP team (Jack, et. al.) the what/how on access to NORD rec centers.

I'd like to know if POCs from the GIP team (Jack? other?) and MoCaFi (Allison? Stanley? other?) can join a quick call on Mon, 11/22 to align on objectives, timeline, etc.

Please let me know availability asap.

Also, @Michelle Thomson (NORD), we're looking for NORD marketing materials to incorporate some content into our 1-pager that highlights the NORD rec center, for those who might not know much about NORD rec centers (access to b-ball courts, workout equip, locations, etc.). Can you share any materials to me directly? Your content will support content on outreach communications, and increase usage/adoption.

Thanks.

Steve

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or

local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

Stanley, Allison and Steve -

Please meet Anna and Shalini. They are from our Homeland security department (Nola Ready) and are the heroes on the ground that shepard the city and her people through weather and other crisis events. Today, I told them about the card and there was interest in exploring how it could be used to assist their work during disasters.

Maybe we can set up a call to explore what that application could look like for them and what would be helpful. I'll leave it to Allison to help coordinate a call.

Stanley, I'm glad you caught that. There's another sign that I'm getting old..

We absolutely should cancel next week if everyone is OK with it.

Everyone deserves as much time with family as possible.

Thx -
George w/ IGNITE CITIES

Thank you Serena.

Allison, let's conduct the new workshop during our Wednesday call next week.

We can carve out 30 minutes and you'll have the whole team.

Please let me know if you need any help standing up the agenda or the framework for the program, thank you.

Thx -
George w/ IGNITE CITIES

Dear Team, as mentioned on our call today, please find a summary of the focus group study that was completed last week, which provides feedback/takeaways on perceptions of a prepaid card with access functionality. As mentioned, this will help inform the marketing materials when onboarding the 125 GIP recipients to make sure: 1) they know the access functionality to NORD rec centers, and 2) to increase access adoption.

Thanks.

Steve

Subject: NOLA Multi-Function ID/City Card Project Calls

When: Wednesday, November 17, 2021 3:00 PM-4:00 PM (UTC-06:00) Central Time (US & Canada).
Where: https://ignitecities.zoom.us/j/89820948885?pwd=WGFsSXYyTHdUSFR6T1N3dzhkR054Zz09&from=addon

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production

    - Manage follow-up card issues after distribution

- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

In the 3rd paragraph, the “F” in “MoCaFi” should be capitalized.

Other than that, looks great.

Team NOLA, passing along our initial coverage report from today's event.

We so appreciate your partnership on earned media – especially on a tight timeline – but the coverage has turned out great so far. We look forward to more opportunities to work together in the future!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

FYI – media advisory is out…..

FOR PLANNING PURPOSES ONLY

MEDIA ADVISORY: Mayor Cantrell to Announce Launch of Crescent City Card Program

NEW ORLEANS -- Mayor LaToya Cantrell, in collaboration with Forward Together New Orleans, the Mayor's Fund, will be joined by executives from Mastercard and Mobility Capital Finance Inc. (MoCafi) and a host of community organizations to kick off the launch of the Crescent City Card Program. This series of initiatives provides residents with access to financial resources and City services in the form of a multi-purpose card.

WHO:
Mayor LaToya Cantrell
Leaders of Forward Together New Orleans, Mastercard, and Mobility Capital Finance Inc. (MoCafi)

WHAT:
Press Conference to kick off the launch of the Crescent City Card Program

WHEN:
Thursday, Nov. 11, 2021, 10 a.m.

WHERE:
The New Orleans Recreation Development (NORD) Commission Rosenwald Recreation Center (1120 S. Broad St.)

Sorry for the delay. Normally Mayor Cantrell will go through the run of show and hand off to the next speaker. It really depends on her and the flow.

Re-upping a previous question – will speakers introduce themselves or will the preceding speaker hand off to the next with an intro? Asking so we can prep our execs on what to expect.

Follow Up Questions with Chi-Team.docx

Hi team!

It seems that my Microsoft Word document was not attached. I'm sorry about this inconvenience.

I believe that I've attached it correctly. Please let me know if you all have any issues with it.

Best,

Shakira

Hi Danish and Team!

My apologies for that. I've re-attached it as a Microsoft Word document.

Please let me know if you have any issues accessing it this way.

Happy Friday!

Hi Shakira and Team,

Hope everyone is well. Thank you for the note. We'll check-in internally to compile responses but in the meantime can you re-share the document? We're unable to access the Google Doc. Can you share the Google Doc without needing a log-in, or as a local Microsoft Word attachment? That'd be most appreciated!

Thank you,

Danish

[Warning: External email]

Good morning all!

It was a pleasure meeting with all of you, we've identified some follow-up questions that we're hoping you can shed some insight on. We remembered that although it was before both of you filled your current roles with the CityKey, there was a community engagement process and report completed to initiate the program. Do you all have any records, recommendations, or tips from that period we could reference as we design ours?

Here's a document with further questions, please feel free to type in thoughts and notes or we can even schedule another meeting to discuss briefly.

https://docs.google.com/document/d/1TCpNFX-xpjfZpeFrimrKu3PW1qmp8UUQ_bR8NcCvtmU/edit?usp=sharing

I hope that you're all doing well!

Thank you,

Shakira

>> All, here is the final quote from Mastercard:

"Mastercard is proud to join Mayor Cantrell, the City of New Orleans, and MoCaFi to introduce this first-in-the-nation partnership connecting New Orleans residents and businesses to the digital economy," **said Linda Kirkpatrick, President of Mastercard North America.** "With our product innovation and insights, Mastercard is helping cities like New Orleans accelerate recovery with equity and resiliency in mind so they are better equipped for the future. We are committed to investing in New Orleans and look forward to partnering on new solutions like the Crescent City Card that support citizens and small businesses who call this great city home."

As mentioned on today's call, would it be possible to see a revised release reflecting Forward Together New Orleans' edit and any outstanding revisions by tomorrow AM? (For instance, the line referencing that the press conference was held at The First 72+ should be revised to reflect the new NORD center location, etc.)

Hoping we can get the release locked by noon tomorrow!

If the chairs are being positioned next to the podium, in view of cameras, 3 chairs. (Mike Froman, Linda Kirkpatrick, Miguel Gamino)

If the chairs are for an audience including staff, 7 chairs please.

Question on remarks: Will the press conference speakers introduce the speaker that follows them? ("And now, I'd like to welcome to the podium XYZ") Or will speakers step up to the microphone on their own and introduce themselves? No preference on our end, but want to be able to prep our execs accordingly.

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be

simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

> On Nov 8, 2021, at 2:05 PM, Lesley E Thomas <Lesley.Thomas@nola.gov> wrote:
>
> Yes, that’s my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.
>
> We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?
>
> Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

Good morning all!

The final details for Forward Together New Orleans are:

- Approximately $190,000 raised
  - $125,000+ locally (Greater New Orleans region)
  - $50,000 going towards supporting the River Parishes, who took a lot more damage from Hurricane Ida.
  - Target populations for this relief effort: Families with Children, Vulnerable Immigrant Communities, Seniors, Unhoused, Displaced, and Disabled people.

If there are any remaining details you all need from us, please let me know!

Best,
Trent

If the chairs are being positioned next to the podium, in view of cameras, 3 chairs. (Mike Froman, Linda Kirkpatrick, Miguel Gamino)

If the chairs are for an audience including staff, 7 chairs please.

Question on remarks: Will the press conference speakers introduce the speaker that follows them? (“And now, I’d like to welcome to the podium XYZ”) Or will speakers step up to the microphone on their own and introduce themselves? No preference on our end, but want to be able to prep our execs accordingly.

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:

- A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

On Nov 8, 2021, at 2:05 PM, Lesley E Thomas <Lesley.Thomas@nola.gov> wrote:

Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.

We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

All, here is the final quote from Mastercard:

"Mastercard is proud to join Mayor Cantrell, the City of New Orleans, and MoCaFi to introduce this first-in-the-nation partnership connecting New Orleans residents and businesses to the digital economy," **said Linda Kirkpatrick, President of Mastercard North America.** "With our product innovation and insights, Mastercard is helping cities like New Orleans accelerate recovery with equity and resiliency in mind so they are better equipped for the future. We are committed to investing in New Orleans and look forward to partnering on new solutions like the Crescent City Card that support citizens and small businesses who call this great city home."

As mentioned on today's call, would it be possible to see a revised release reflecting Forward Together New Orleans' edit and any outstanding revisions by tomorrow AM? (For instance, the line referencing that the press conference was held at The First 72+ should be revised to reflect the new NORD center location, etc.)

Hoping we can get the release locked by noon tomorrow!

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product,

our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint
Director, Municipal Engagements

> On Nov 8, 2021, at 2:05 PM, Lesley E Thomas <Lesley.Thomas@nola.gov> wrote:
>
> Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.
>
> We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards.

Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

All, here is the updated run of show for the press conference as of today. Are there any changes necessary? Please verify name spellings and titles.

Josh, should we add you to the run of show to provide technical details of the how the card will operate as the lead from the Mayor's Office?

Did everyone have a chance to review the updated draft of the press release? I noticed that the draft did not contain a quote from Mastercard….?

FYI – related to set up, I've secured the following:

- 8/20 riser (stage)
- 40 white chairs
- Podium
- Sound system with microphone
- Tent

Run of Show:

Date: Nov. 11, 2021
Time: 10 a.m. CST
Location: First72 Plus located at 2915 Perdido St.
Who: City of New Orleans, Mastercard and MoCafi Crescent City Card Kick-off Launch

1. Mayor LaToya Cantrell
    - Welcome Remarks/Master of Ceremony
2. Michael Froman, Mastercard Vice Chairman and President, Strategic Growth
    - Mastercard's role and support of the program
3. Linda Kirkpatrick, President, Mastercard North America
    - Mastercard's participation and support for NOLA
4. Wole Coaxum, Founder and CEO, MoCaFi
    - MoCaFi's partnership to launch Crescent City Card
5. **Local leaders who are community partners:**

Subject: RE: ROS/Press Release Updates

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni

ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary

disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
        - Yes. The program was launched on September 24th
        - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

>
> Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.
>
> We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary)

together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

All, here is the updated run of show for the press conference as of today. Are there any changes necessary? Please verify name spellings and titles.

Josh, should we add you to the run of show to provide technical details of the how the card will operate as the lead from the Mayor's Office?

Did everyone have a chance to review the updated draft of the press release? I noticed that the draft did not contain a quote from Mastercard….?

FYI – related to set up, I've secured the following:

- 8/20 riser (stage)
- 40 white chairs
- Podium
- Sound system with microphone
- Tent

Run of Show:

Date: Nov. 11, 2021
Time: 10 a.m. CST
Location: First72 Plus located at 2915 Perdido St.
Who: City of New Orleans, Mastercard and MoCafi Crescent City Card Kick-off Launch

1. Mayor LaToya Cantrell
    - Welcome Remarks/Master of Ceremony
2. Michael Froman, Mastercard Vice Chairman and President, Strategic Growth
    - Mastercard's role and support of the program
3. Linda Kirkpatrick, President, Mastercard North America
    - Mastercard's participation and support for NOLA
4. Wole Coaxum, Founder and CEO, MoCaFi
    - MoCaFi's partnership to launch Crescent City Card
5. **Local leaders who are community partners:**
    - Chad Sanders
        - Co-Executive Director of The First 72+
    - Fred Johnson IV, Senior Director of Collegiate Academies Next
        - Guaranteed Income Pilot Nonprofit Partner

First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint
Director, Municipal Engagements

Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.

We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I’d like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?

- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Subject: RE: ROS/Press Release Updates

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?

- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

> On Nov 8, 2021, at 2:05 PM, Lesley E Thomas <Lesley.Thomas@nola.gov> wrote:
>
> Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.
>
> We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?
>
> Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

All, here is the updated run of show for the press conference as of today. Are there any changes necessary? Please verify name spellings and titles.

Josh, should we add you to the run of show to provide technical details of the how the card will operate as the lead from the Mayor's Office?

Did everyone have a chance to review the updated draft of the press release? I noticed that the draft did not contain a quote from Mastercard….?

FYI – related to set up, I've secured the following:

- 8/20 riser (stage)
- 40 white chairs
- Podium
- Sound system with microphone
- Tent

Run of Show:

Date: Nov. 11, 2021

Time: 10 a.m. CST

Location: First72 Plus located at 2915 Perdido St.

Who: City of New Orleans, Mastercard and MoCafi Crescent City Card Kick-off Launch

1. Mayor LaToya Cantrell
    - Welcome Remarks/Master of Ceremony
2. Michael Froman, Mastercard Vice Chairman and President, Strategic Growth
    - Mastercard's role and support of the program
3. Linda Kirkpatrick, President, Mastercard North America
    - Mastercard's participation and support for NOLA
4. Wole Coaxum, Founder and CEO, MoCaFi
    - MoCaFi's partnership to launch Crescent City Card
5. **Local leaders who are community partners:**

Chad Sanders

- Co-Executive Director of The First 72+

- Fred Johnson IV, Senior Director of Collegiate Academies Next
  - Guaranteed Income Pilot Nonprofit Partner

Austin – FYI regarding one of the questions you had about participant selection for the 125 card program.

The Mayor's office/MGI will select the 125 participants by the end of Nov, and give this list to MoCaFi for them to issue cards to.

Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**

        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:

            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents

    - First 72+

        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic

    - EZ Access at NORD

        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

> Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.

We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it

back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

I will check in on the available options……yes, I definitely proposed an indoor location.

Fyi – Although I am sure we can halt the construction underway for a few hours, the First 72+ site is set up as an outdoor event and would definitely have uncontrollable noise to deal with.

Hi Lesley, which NORD center location did you have in mind? Would it be indoors? Our concern at the outset was with construction and outdoor noise, so an indoor space that we can control more easily seems preferable.

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account).

Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members

- In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic

- EZ Access at NORD
    - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint
Director, Municipal Engagements
Mobility Capital Finance, Inc. ("MoCaFi")

On Nov 8, 2021, at 2:05 PM, Lesley E Thomas <Lesley.Thomas@nola.gov> wrote:

Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.

We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Hi Lesley, which NORD center location did you have in mind? Would it be indoors? Our concern at the outset was with construction and outdoor noise, so an indoor space that we can control more easily seems preferable.

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site.

They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

Also, I would like to discuss a site back up plan for the event. The First 72+ is now a construction site. They broke ground on an expansion phase to add more temporary housing options to their facility. I did a quick visit this morning with our tent provider and vertical construction is now underway.

I'd like to re-propose a NORD recreation center. Our NORD centers act as hubs for community activities and City service resource distribution centers. They are used as FEMA and SBA resource locations when a disaster occurs in our City, and are used for youth programming daily. Seniors attend exercise classes at these locations and we are currently hosting pandemic rental assistance outreach events at one of the centers. We connect with residents of all ages, ethnicities and income levels at these community hubs. They embody the essence of what the Crescent City Card and every other initiative that falls under this umbrella represents…. Connecting our residents to much needed resources in the most consolidated and streamlined way.

Any thoughts on this option? We can discuss via email or on the call.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you

requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement

cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
        - Yes. The program was launched on September 24th
        - Yes. All cards were distributed directly to residents

- First 72+

    - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
    - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic

- EZ Access at NORD

    - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint
Director, Municipal Engagements
Mobility Capital Finance, Inc. ("MoCaFi")

>
> We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September

(how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program

- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements

(prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
    - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic

- EZ Access at NORD
    - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that

accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th
            - Yes. All cards were distributed directly to residents
    - First 72+
        - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
        - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
    - EZ Access at NORD
        - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint

Yes, that’s my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.

We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Hi All,

I have gone through Austin's comments and answered where I can – ie. where there is a product / technical related question.

I believe the main points that Austin is keen to clarify are related to the 120 and 125 card programs and Mocafi's commitments to them, and whether this pilot agreement has any bearing on them.

Amalia / Paul C – please have a look over this version with my comments / responses included.

Paul

Date:	Monday, November 8, 2021 3:06:14 PM

Hi Stanley, see my comments/questions in blue. Also, if there are edits needed in the release, I'll need everyone to track change them in the release so we all can understand what we are talking about on Thursday. I would like to give the Mayor a timeline today on when this full programming is expected to launch and the cards will be in the hands of residents. Is this possible? To me, this is a necessity to move forward with this event. I would hate for her to get this question and there are no answers to provide. 2022 is just too vague to me.

The logistics are good to go, but the announcement still needs flushing out to me…. Unless someone else can try….

Just my thoughts….

- Question:
    - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?

Both if possible to answer. If we are kicking-off the launch of the **Crescent City Card**, how long before residents can start receiving them? I believe we discussed 2022… can that be simplified a bit? Maybe Spring/Fall 2022? I'd like the Mayor to be able to pin point an idea of how long before the cards can be distributed. As far as the municipal id, did we ever establish a timeline on this tool?

Again, here lies the confusion:

Items to mention in this weeks press conference:

- Partnership being announced: City/Mastercard and MoCafi – to launch Crescent Card Program
- Crescent Card Program includes three initiatives: **Guaranteed Income/Ida Relief/Crescent Card (municipal ID in research phase)** accurate? Is the Guaranteed Income program a part of this list of initiatives? Is the IRC card temporary and will be changed out to the Crescent Card when available?
- Mayors For A Guaranteed Income Program pilot launched in 2020 to assist families facing financial struggles during the COVID-19 Pandemic
- Ida Relief Program launched with temporary cards in September to aid families during storm response and recovery (these residents will receive the Crescent City Card when ready to distribute)
- When did the Demand Deposit Accounts program officially launch for the formally incarcerated? How does this connect to our announcement? I was under the impression that this card and the others were temporary. Will this group have access to the Crescent Card

program once the cards are ready? Will they no longer need the DDA program to access banking tools? Is the banking tool where Mastercard comes into play?
- As far the NORD card, I was also under the impression that this is a part of the Crescent Card's programing for future launching? Is that not accurate.

So, we are hosting an event at a location that is not connected to these programs, but can share stories on how a card of this magnitude will help when returning from incarceration? Is that accurate? And when this card becomes available, they will also have access to the Crescent Card… right?

It's like we are talking about ***three different cards*** but are focused on the Crescent Card launch.. we have to be able to tie them all into one objective. Does this make any sense?

- Comments:
    - **Hurricane Ida Disbursements**
        - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
        - Operations:
            - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
            - Yes. The program was launched on September 24th

Lesley,

A few questions and comments:

- Question:
  - A timeline for which of the products — Crescent City Card or NOLA Muni ID — are you requesting?
- Comments:
  - **Hurricane Ida Disbursements**
    - **Trent:** Please share the total size of the Ida Relief fund and the average per person disbursement amounts
    - Operations:
      - For recipients who still have funds on their temporary disbursement cards, MoCaFi will transfer funds to the Crescent City Card once it becomes available
      - Yes. The program was launched on September 24th
      - Yes. All cards were distributed directly to residents
  - First 72+
    - They are part of a different program, utilizing a different product, our mobile banking product. The product is the Demand Deposit Account (bank account). Unlike the cards being used for IDA disbursements (prepaid cards), Demand Deposit Accounts require that the individual apply for the card. First 72+ has been assisting its members with the application process. However, following Hurricane Ida, First 72+ temporarily suspended this program to focus on its recovery efforts. As of a few weeks ago, First 72+ resumed the program and are once again promoting it to its members
    - In light of the slow ramp-up of returning citizens utilizing the DDA product, we have begun to work with other local organizations that are focused on serving this demographic
  - EZ Access at NORD
    - No. The EZ Access capability will not be ready in time for this week's event

Please let me know if you have any additional questions and/or concerns.

Best,

Stanley Toussaint
Director, Municipal Engagements
Mobility Capital Finance, Inc. ("MoCaFi")

On Nov 8, 2021, at 2:05 PM, Lesley E Thomas <Lesley.Thomas@nola.gov> wrote:

Yes, that's my plan as soon as we get the language in the release approved by all parties. I wanted to make sure the text was accurate according to what we are talking about and how this program has been/is being launched. I still believe that we should provide a slightly more detailed timeline on the finished product… that would be my first question if I was a reporter.

We also need specifics on the amount of dollars distributed to residents as a part of the Ida Relief fund and how we tie these cards (temporary) together before residents can access the Crescent City Card. Was this portion of the program launched in September (how soon after Hurricane Ida)? The chart that was provided mentions 200 cards to date. Does that mean that is the number of cards distributed directly to residents? Same for the number of citizen re-entry cards. First 72 + mentioned that as of today only 11 formally incarcerated individuals received the cards. Accurate?

Also, can someone verify if the city services access portion will include touchless access as stated in the release?

Thanks, Lesley. The release draft looks great to us! We are currently getting approval on quote from Linda Kirkpatrick, President, Mastercard North America and will have it back to you EOD/tomorrow AM.

Is the City still planning to send an advisory on Wednesday and Thursday AM? Is there a draft copy we can review?

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

All, here is the updated run of show for the press conference as of today. Are there any changes necessary? Please verify name spellings and titles.

Josh, should we add you to the run of show to provide technical details of the how the card will operate as the lead from the Mayor's Office?

Did everyone have a chance to review the updated draft of the press release? I noticed that the draft did not contain a quote from Mastercard….?

FYI – related to set up, I've secured the following:

- 8/20 riser (stage)
- 40 white chairs
- Podium
- Sound system with microphone
- Tent

Run of Show:

Date: Nov. 11, 2021
Time: 10 a.m. CST
Location: First72 Plus located at 2915 Perdido St.
Who: City of New Orleans, Mastercard and MoCafi Crescent City Card Kick-off Launch

1. Mayor LaToya Cantrell
    - Welcome Remarks/Master of Ceremony
2. Michael Froman, Mastercard Vice Chairman and President, Strategic Growth
    - Mastercard's role and support of the program
3. Linda Kirkpatrick, President, Mastercard North America
    - Mastercard's participation and support for NOLA
4. Wole Coaxum, Founder and CEO, MoCaFi
    - MoCaFi's partnership to launch Crescent City Card
5. **Local leaders who are community partners:**
    - Chad Sanders
        - Co-Executive Director of The First 72+
    - Fred Johnson IV, Senior Director of Collegiate Academies Next
        - Guaranteed Income Pilot Nonprofit Partner

Leslie, I hope you're well.

Can you please confirm you receive the print assets for the November 11 event.

Also, now that we move the event time tp 10 - 11, the actual time we will start the press conference should be 10:20 and we should run a show as well.

We should have all participants and attendees on site by 10am, but open there speaking will start at 10:20am.

Let's work together to make sure that the event run of show is accurate and ready to as soon as possible.

Finally, can you send over the confirmed an approved press release later today, thank you.

Thx -
George w/ IGNITE CITIES

[Warning: External email]

Good morning all!

It was a pleasure meeting with all of you, we've identified some follow-up questions that we're hoping you can shed some insight on. We remembered that although it was before both of you filled your current roles with the CityKey, there was a community engagement process and report completed to initiate the program. Do you all have any records, recommendations, or tips from that period we could reference as we design ours?

Here's a document with further questions, please feel free to type in thoughts and notes or we can even schedule another meeting to discuss briefly.

https://docs.google.com/document/d/1TCpNFX-xpjfZpeFrimrKu3PW1qmp8UUQ_bR8NcCvtmU/edit?usp=sharing

I hope that you're all doing well!

Hi George,

Yes, Allison is here with me now. We have three 11X17 posters, the retractable banner and 20 mock cards in my office.

Is there a reason we should start the run of show at 10:20 a.m. and not exactly at 10 a.m.? Can we ask all of the speakers to arrive earlier -- maybe around 9:45 a.m.? If we schedule this on the Mayor's calendar as a 10 a.m. start, she will expect it to start then.

I am working with Jack and Allison on edits for the release. We should have an updated version later today. I hope that works for the team.

Lesley and NOLA team,

Quick UPDATE - Michael Froman, Mastercard Vice Chairman and President of Strategic Growth, will be the only one from Mastercard speaking at the press conference on the 11th.

Linda Kirkpatrick, President, Mastercard North America, will NOT be attending. Please make any necessary changes to the press release and run of show, thanks.

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

"Service to others is the rent you pay for your room here on earth." Ali

Moving Steven W, John F, Michele W. to bcc, and adding Nisha P to discuss NORD Access Pilot Agreement

Hi Austin, Kim L. mentioned on our weekly status call that you will have to speak to all the stakeholders, including Vermont Systems, before sharing the NORD access Pilot Agreement.

Our legal suggested if we can all get on a call to see if there are any specific points that can addressed/simplified/clarified.

I'll shoot an invite for next week.

Thanks.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.

- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Steve, lets use part of tomorrows NOLA call for the data opportunity.

Kim is reviewing everything as well.

Please have your team prepared to get started, thanks.

Thanks, George.

Will our weekly 3pm CST standing call (“OLA Multi-Function ID/City Card Project Calls”) be cancelled tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Hello Kim, I want to circle back on Pilot Agreement that was promised last week.

I know you and your teams are doing so much to start the recovery process, and that is the priority at the moment. But wanted to get this in your inbox when you're ready to review/discuss.

Again, my thoughts and prayers are with you, your family and colleagues.

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

EMAIL FROM EXTERNAL SENDER: DO NOT click links, or open attachments, if sender is unknown, or the message seems suspicious in any way. DO NOT provide your user ID or password. If you believe that this is a phishing attempt, use the reporting tool in your Outlook to send this message to Security.

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own

municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

"Service to others is the rent you pay for your room here on earth." Ali

Lesley, that would be completely up to you from a comms perspective. I would suggest locking in everyone needed for the event as quickly as possible.

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

"Service to others is the rent you pay for your room here on earth." Ali

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

“Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the ‘NOLA City Card,’ a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation,” Mayor LaToya Cantrell.

“Service to others is the rent you pay for your room here on earth.” Ali

Avery, the city already has the press release, which includes includes a quote from ignite.

Lesley, please use the document I sent over 15 minutes ago.

Also, per my last email, please confirm next steps.

Thx -

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

"Service to others is the rent you pay for your room here on earth." Ali

George, understood. However, our approval process involves the Mayor and due to her international travels it may be a day or so before I hear back from her. If possible, can you use the draft quote as a holding place until we receive approval for the final version? That way, I can view the draft release for context. Will that work?

Lesley E. Thomas

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

“Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the ‘NOLA City Card,’ a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our

own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

"Service to others is the rent you pay for your room here on earth." Ali

No objection on my part, the example setup in your attached photo looks great.

Since we'll be outdoors, will there be any construction on site or in the surrounding area occurring during the press conference?

Thanks George,

Mastercard and MoCafi team,

Are you open to adding a tent, chairs and a staging area to the press conference set up? The location is essentially a house that hosts the First 72 Plus organization and the location of where we plan to set up the press conference is a sidewalk/driveway area. It is also steps away from a construction site on their property. They are expanding their temporary housing facility.. which is also a great part of this story. See attached for visual purposes.

Thoughts?

Subject: updated quote for the press release - thanks
Date: Monday, November 1, 2021 10:12:36 AM

EMAIL FROM EXTERNAL SENDER: DO NOT click links, or open attachments, if sender is unknown, or the message seems suspicious in any way. DO NOT provide your user ID or password. If you believe that this is a phishing attempt, use the reporting tool in your Outlook to send this message to Security.

Team NOLA,

Here is the updated quote for the Nov 11th press release. I have already shared it with Art. The Mastercard team will use this moving forward. You can always adjust if necessary.

"Economic empowerment, digital equity and inclusion need to be our priority as we move through this pandemic. The City of New Orleans has partnered with Mastercard and MoCaFi to develop the 'NOLA City Card,' a first-of-its-kind program to give residents access to digital financial tools, emergency disbursements, and city services such as NORD centers and libraries all in one card. This is just the beginning for the NOLA City Card, as we plan to deploy our own municipal ID and deliver benefits across retail and transportation," Mayor LaToya Cantrell.

"Service to others is the rent you pay for your room here on earth." Ali

Hello Austin and team,

Please find attached a revised redline and clean copy of the **City of New Orleans - Emergency Disaster Recovery Service Advisors Statement of Work (SOW)**. Most of the proposed modifications were accepted, except for the language in Solution 2: Advisory Services, Section 4 (Other Terms). Please see the language redlined as a workaround.

We wanted to get this to you right away while we work on the MSA.

Thank you.

Steve

Importance: High

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Lesley, I'm connecting you with Mastercard and MoCaFi so you can confirm and coordinate the required assets (podium/stands, marketing/ print material) for the 11/11 event.

Please let me know if there's anything needed from us to support next steps

Thx -

Thanks Avery.

Can you please change "UBI" on Page 1 and 2 to: "New Orleans Guaranteed Income Program"?

Thanks,

to send this message to Security.

All, good to connect yesterday evening. As promised, the earned media abstract is attached.

For our planning purposes, can the City provide the address for the First 72+ facility that has been identified as the press conference location?

We will await City feedback on the proposed quote from Mayor Cantrell before moving forward on a release to ensure alignment.

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally

recognized
    1. Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
    1. Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

+ Paul K.

Good morning, Austin.

Also, on our weekly call with the mayor's team, Kim mentioned that you are also ready to share the Pilot Agreement on the NORD access pilot. Please shoot that over soon.

Thank you.

Steve

Hi Steve,

It is my understanding that Kim and Art plan to discuss internally today before your regularly scheduled call, and Law is prepared to circulate the redline as soon as the routing department gives us the green light.

Thanks,

Good morning Steve and all;

Law has reviewed, and the redlined draft is circulating internally for review and comment relative to certain policy and business decisions.

Once our office receives the go ahead, we will send over the updated redlined version.

Please know that I am available if you have any questions or need additional information.

Thanks,

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Steve,

We are trying to confirm a date/time for tomorrow to start or Thursday.

The times I gave you didn't work. Please offer a few dates/times for Kim and I.

"Service to others is the rent you pay for your room here on earth." Ali

Importance: High

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI

cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Steve

Hello Kim, I want to circle back on Pilot Agreement that was promised last week.

I know you and your teams are doing so much to start the recovery process, and that is the priority at the moment. But wanted to get this in your inbox when you're ready to review/discuss.

Again, my thoughts and prayers are with you, your family and colleagues.

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc.

for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Ready to go! I've reviewed the agreement and have very minor comments in the version attached. The next step is to have our city attorney, Austin Wilty (copied here), to review the agreement to determine who should sign.

I'll provide an update in tomorrow's meeting.

Steve, lets use part of tomorrows NOLA call for the data opportunity.

Kim is reviewing everything as well.

Please have your team prepared to get started, thanks.

Thanks, George.

Will our weekly 3pm CST standing call ("OLA Multi-Function ID/City Card Project Calls") be cancelled tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Hello Kim, I want to circle back on Pilot Agreement that was promised last week.

I know you and your teams are doing so much to start the recovery process, and that is the priority at the moment. But wanted to get this in your inbox when you're ready to review/discuss.

Again, my thoughts and prayers are with you, your family and colleagues.

Good morning Steve and all;

Law has reviewed, and the redlined draft is circulating internally for review and comment relative to certain policy and business decisions.

Once our office receives the go ahead, we will send over the updated redlined version.

Please know that I am available if you have any questions or need additional information.

Thanks,

Austin P. Wilty

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)

- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hey Kim,

Both, Steve and I would like to quickly discuss the pilot agreement whenever you have 10 mins. We can be free later today or tomorrow, please advise, thanks.

Stay safe and well,

Just so everyone is on the same page, Kim is filling in for the Mayor on this tomorrow. She is working to develop the majority of her talking points, Liana/I have provided her with some and I will give them a final read once she's finished this evening.

Emily

Cc: Mayor's Communications Team <communications@nola.gov>
Subject: Re: 10/26 Cybersecurity Panel

This is what Liana provided me with the questions about public trust, so I think we're well on our way.

1. First, let's begin with a basic question that will set the context for the rest of our discussion. How do you define the term smart city in the context of your city?
2. Executing on a long-term vision for building a smarter city requires the buy-in from a lot of stakeholders including the communities we serve. Central to that buy-in is gaining trust from these constituents. What has worked for you in gaining trust that enables the important work of city progress to proceed?

We have seen a historic decline in public trust of government over the pat several decades. Most people tend to trust their local governments closer to home than State and Federal levels, but we are feeling it as well with pushback against proposed City projects, cynicism about our intentions or our ability to handle public dollars and spend them in the best interest of our people.

I established a new initiative in my office called Project Why, dedicated to understanding and addressing this underlying lack of trust because we saw this fundamental disagreement about basic facts – we say "the pumps are on" and people say "no they're not" – how do you get past that to have bigger conversations about how our climate has changed and how we need to adapt to be

more resilient?

You have to understand where it all comes from – there is an underlying trauma there that needs to be acknowledged before the healing can start. The mistrust doesn't come from nowhere, a lot of communities have had legitimately terrible experiences with a government that weren't working for them (at best), or actively working against their best interests (at worst).

Project Why basically identifies these trigger points (we call them "Moments That Matter"), dissects them to figure out why people feel that way and work with residents and the community to build a better solution. Sometimes it means explaining why we do things the way that we do, sometimes it means looking internally to see why we do things that way anyways, and oftentimes it's a combination of both. Gaining trust comes from having these conversations in the first place, listening intently and empathetically, and following through so people can see that they made a difference. This starts to shift the narrative that government is working FOR you, not something that happens TO you.

3. So, you've gained trust and now you can move forward with your smart city efforts. What are the techniques that have served you well in maintaining trust?

People needs to see themselves in their government. Not only that the people working for the City look and sound like they do, but that it's actually built for them as users. This is especially true for smart cities grappling with a deep digital divide and an education system that has left 40% of our adult population at a 5^{th} grade reading level.

Technology can be a great way to get more information into peoples hands, but you have to been realistic about how – or if – people are accessing that information. Do they understand what the technology or the service is and how they can benefit from it? How are we signaling to our community that this is for THEM, not designed for the college-educated professional desk-job and then tweaked and adapted so they can use it too. Who is your first and primary user that is going to benefit?

People can tell when they are truly being considered and when they are a footnote. Getting out into the community to talk to people, actually touching and seeing the benefits first hand, listening to their feedback and input – this builds trust over time. It took us decades (or centuries) to get to this point, it's going to take rolling up our sleeves and engaging to heal that individual and community-level trauma.

4. In what ways does a high degree of trust manifest in a community. Put another way, what does it look and feel like when our communities believe in the work we're doing?

People ask for it, they want it in their communities and their neighborhoods. They expect more of us, expect better higher quality services. They engage with the process, they report when things are broken or not working right.

We also see a lot more satire in our Mardi Gras float themes!

But seriously measuring trust can be really difficult. Project Why has also been working on various ways to understand if we are moving the needle or not. General "trust" is a big complex human emotion that we can't necessarily control – but we CAN build a trustworthy system. Our team broke down trust into it's key components, and uses those as design criteria for developing better solutions and services. We call them the "signals of trust" – things like Accountability, Transparency, Intent, Reliability, Empathy, Competence, etc.

The Project Why team also developed a "Trust-O-Meter" that they bring out to community events and ask people to rate the City on these signals of trust – it looks like a big thermometer, and people put little sticky dots on it to show what they think. It's important to get this feedback directly from people (just ask them!), but it's also important to start generating these conversations and showing people we legitimately want to know their opinion.

5. Pursuing smart city initiatives can elevate questions of privacy and cybersecurity risk. How do we address these legitimate concerns? Talk about specific techniques that have worked for you.
6. When it comes to building trust in our smart city efforts so that communities can love the potential outcomes, what do you find is most concerning to your constituents at the outset?
7. It's often difficult to speak about and share when things don't go so well. But it's in these stories that we learn so much. Please share a story about gaining trust, where risk was elevated, that didn't go so well.
8. In some communities, tensions are high for a wide variety of reasons, and distrust of city government persists. This has created an uneasiness about city living. What might we do to help people fall in love with their cities again?

Justin, amazing!

Jabarie and Team,

Thank you so much for enabling the Mayor to speak at our conference! You and the Mayor are heros to our audience. Your text-book handling of the 2019 phishing attack still inspires many.

In terms of logistics:
1) Photo, bio on event website - please update as you see fit.
2) Speakers graphic
   Attached below. Also, posted on LinkedIn - appreciate it if you share it out.
3) Topics - sending your way soon today for feedback
4) Platform tech check - Crowdcast (easy like Zoom)
   Kenny and team will get you up to speed soon

Lastly, please expect a calendar invite from me with essentials in the Description for the event. Looking forward to a great session together,
Lan J

Importance: High

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hi Steve,

It is my understanding that Kim and Art plan to discuss internally today before your regularly scheduled call, and Law is prepared to circulate the redline as soon as the routing department gives us the green light.

Thanks,

Austin P. Wilty

Good morning Steve and all;

Law has reviewed, and the redlined draft is circulating internally for review and comment relative to certain policy and business decisions.

Once our office receives the go ahead, we will send over the updated redlined version.

Please know that I am available if you have any questions or need additional information.

Thanks,

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Steve

Hello Kim, I want to circle back on Pilot Agreement that was promised last week.

I know you and your teams are doing so much to start the recovery process, and that is the priority at the moment. But wanted to get this in your inbox when you're ready to review/discuss.

Again, my thoughts and prayers are with you, your family and colleagues.

Steve

Hello Kimberly,

I want to let you know my thoughts and prayers are with you and all the residents in New Orleans. I hope you and all your colleagues, friends and family members stay safe, and Hurricane Ida dies down soon.

I am thinking of you during this most challenging time.

Sincerely,

Steve

Hey Kim,

Both, Steve and I would like to quickly discuss the pilot agreement whenever you have 10 mins. We can be free later today or tomorrow, please advise, thanks.

Stay safe and well,

Hello Everyone,

As mentioned yesterday, please see the attached abstract for the press conference on 11.11.

@lesley.thomas@nola.gov – Kindly let us know if you have any questions or concerns about the attached in advance of our regroup on Monday.

@george@ignitecities.com – Confirming that you are putting that time for us to regroup on the calendar. I believe everyone said 4:30 PM CT worked best.

Hi everyone,

Thank you for making the time for this first kick-off and looking forward to planning a great event – it was great to meet you all.

We wanted to initially share some press releases and video clips that you may find interesting from our initiatives in other cities, such as Los Angeles and Birmingham.

- **Press Release from Mayor Garcetti announcing Angeleno Connect / City Key**: see link here
- **Birmingham Press Release by Mayor Woodfin on a Small Business Initiative:** see link here
  *Published on **Mastercard Newsroom** and distributed on **Businesswire**. This news drew coverage from all local broadcast affiliates including **NBC** (3 hits), **FOX** (8 hits), **CBS** (8 hits), **ABC** (4 hits), as well as **The Birmingham Times**. Additional coverage has since published in local Birmingham outlets including **The Birmingham Business Journal**, **Bolly Inside**, **Bham Now** and **Patch**.*
- **Press release from the Financial Literacy Fair on Los Angeles Community College District Trade Tech Campus: see link here**

As a follow up, we will send you an "abstract" by tomorrow EOD.

We look forward to chatting next week. Also, @Lesley E Thomas, let us know if you have any questions prior to our meeting on Monday; we are happy to address in advance.

Thanks,
Michael

City of New Orleans Public Records

A message was added to record request #21-8779:

The Real Time Crime Center does not receive, use, or consider any artificial intelligence (AI) tools or related materials.

1- Motorola's Command Central Aware was purchased via the Motorola Master Services Agreement, that original and subsequent amendments (extensions) have been emailed. The Genetec Video Management System is not an AI tool and it was purchased via the GSA contract, therefore there is no contract with the City of New Orleans for that product.

2-18 There is no responsive records.

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Thanks, George.

Will our weekly 3pm CST standing call ("OLA Multi-Function ID/City Card Project Calls") be cancelled tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Importance: High

Hello Austin, Tracy, et. al.,

Any update on the signed SOW/MSA? Our team needs it asap so they can secure the resources to provide delivery support. Otherwise, they run the risk of not having the advisors to support you on the data analytic impact.

Please respond as soon as you can.

Steve

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc.

for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hi Austin,

How are you faring with the review of the Pilot Agreement between NOLA / Mastercard / Mocafi?

Do we need to regroup and discuss it any further?

Let us know if you need any further support.

Regards
Paul

Hi Austin,

Per our call earlier – attached is the Pilot Agreement that covers the "Access" part of the card program we discussed. This version contains the feedback / comments from Mocafi.

You can add your comments / feedback to this version and send to us for further review.

Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hi everyone,

I won't be available for today's call because I have a conflict and Josh and Emily are out so just wanted to give everyone a head's up.

Thanks!

CAUTION: The message originated from an EXTERNAL SOURCE. Please use caution when opening attachments, clicking links or responding to this email.

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - **By November 15, 2021 we will:**

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
    1. Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
    1. Weekly update required

4. Determine a plan for executing on the creation of the City ID that is federally recognized

    1. Plan is required

5. We will now include the Ida IRC project – 200 card delivered and ready

By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

- **Goal 1** - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
- MoCaFi will:
    - Interface with CEO and First72+ around needed info to begin due diligence – completed
    - Perform due diligence with bank for CEO and First72+
    - Manage card creation and production
    - Manage follow-up card issues after distribution
- Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.

Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following individuals will be involved:

- Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
- Sunae Villavaso - OWD - sunae.villavaso@nola.gov
- Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
- Austin Wilty - Law - apwilty@nola.gov
- Josh Cox - Mayor's Office - joshua.cox@nola.gov
- Emily Wolff - OYF - emily.wolff@nola.gov

George Burciaga is inviting you to a scheduled Zoom meeting.

Subject: RE: NOLA IDA Economic Recovery - Data Analysis Support - SOW review
Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc.

for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hi Austin,

Per our call earlier – attached is the Pilot Agreement that covers the "Access" part of the card program we discussed. This version contains the feedback / comments from Mocafi.

You can add your comments / feedback to this version and send to us for further review.

Regards
Paul

Subject: RE: NOLA IDA Economic Recovery - Data Analysis Support - SOW review
Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty
Assistant City Attorney

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Hi Austin,

Per our call earlier – attached is the Pilot Agreement that covers the "Access" part of the card program we discussed. This version contains the feedback / comments from Mocafi.

You can add your comments / feedback to this version and send to us for further review.

Regards
Paul

Subject: RE: NOLA IDA Economic Recovery - Data Analysis Support - SOW review
Importance: High

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Currently working as a team to develop and deploy a phased approach for the offering:

Phase 1 Goals - By November 15, 2021 we will:

1. Put the standalone banking product in at least 300 hands
2. Create a City rewards program/discounts associated with the cards
* Plan is required
3. Research the law, barriers and opportunities to provide a City ID that is federally recognized
* Weekly update required
4. Determine a plan for executing on the creation of the City ID that is federally recognized
* Plan is required
5. We will now include the Ida IRC project – 200 card delivered and ready
By hitting the following goals, not only to we demonstrate that we have traction (300 cards in hands in 3 months isn't too shabby), but we also set ourselves up for mass distribution among all classes of New Orleanians. Mind you, Steve has been doing excellent work with NOPL, NORD and RTA that, when completed, can offer functionality that makes this card's appeal wide.

QB for Goals

* Goal 1 - Put the standalone banking product in at least 250+ hands through UBI pilot, CEO Works and First72+.
* MoCaFi will:
* Interface with CEO and First72+ around needed info to begin due diligence – completed
* Perform due diligence with bank for CEO and First72+
* Manage card creation and production
* Manage follow-up card issues after distribution
* Once Cards are received, City will interface with UBI, CEO and First72+ for distribution.
Goal 2 - Create the plan for a City rewards system or some local discounts that can be offered in conjunction with the card. MoCaFi will create, manage and execute the rewards plan or local discounts system that can accompany the cards.

Goals 3 & 4 - Research laws, barriers, and opportunities for a federally recognized City ID and create a plan for execution. City will drive and manage this portion of the process, and the following

individuals will be involved:

* Anamaria V. Lupin - OYF - anamaria.villamarin-lupin@nola.gov
* Sunae Villavaso - OWD - sunae.villavaso@nola.gov
* Eliza Kauffman - Human Rights - eliza.kauffman@nola.gov
* Austin Wilty - Law - apwilty@nola.gov
* Josh Cox - Mayor's Office - joshua.cox@nola.gov
* Emily Wolff - OYF - emily.wolff@nola.gov

Dear All, here are the next step action items from today's call:

- Steve W. to send up dated SOW on the Economic Recovery Data Analytics Support.
- Steve T. to set up a call to discuss any outstanding items from today's call on Wed, 2:45pm CST
- Steve T. to send the Pilot Agreement for the NORD Rec Access (please see attached)
- To use our weekly NOLA call on 3:00pm CST to hear NOLA's feedback on the Pilot Agreement

@George, given above, I'll call you to coordinate the Wed 3pm call to accomplish above.

Thank you.

Steve

Apologies, as I misread your message.

If Kim and Art are available Monday sometime between 2-4, I think we should be able to get something on the books.

Thanks,
Austin

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Ready to go! I've reviewed the agreement and have very minor comments in the version attached.

The next step is to have our city attorney, Austin Wilty (copied here), to review the agreement to determine who should sign.

I'll provide an update in tomorrow's meeting.

Steve, lets use part of tomorrows NOLA call for the data opportunity.

Kim is reviewing everything as well.

Please have your team prepared to get started, thanks.

Thanks, George.

Will our weekly 3pm CST standing call ("OLA Multi-Function ID/City Card Project Calls") be cancelled tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other

agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Ready to go! I've reviewed the agreement and have very minor comments in the version attached. The next step is to have our city attorney, Austin Wilty (copied here), to review the agreement to determine who should sign.

I'll provide an update in tomorrow's meeting.

Steve, lets use part of tomorrows NOLA call for the data opportunity.

Kim is reviewing everything as well.

Please have your team prepared to get started, thanks.

Thanks, George.

Will our weekly 3pm CST standing call ("OLA Multi-Function ID/City Card Project Calls") be cancelled tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Importance: High

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.

Hello Kim, I want to circle back on Pilot Agreement that was promised last week.

I know you and your teams are doing so much to start the recovery process, and that is the priority at the moment. But wanted to get this in your inbox when you're ready to review/discuss.

Again, my thoughts and prayers are with you, your family and colleagues.

[Warning: External email]

Eliza and team,

Allow me to introduce, Anna Valencia, the City Clerk of Chicago and the person responsible for the success of the Chicago City Key Municipal ID.

Anna, as mentioned, the City of New Orleans has launched a city card solution that provides access to city services, relief funding and banking services.

This offering will also become a city ID, but the team would enjoy coordinating a call with you and your team to learn and better understand the best way to launch this program.

Eliza, please introduce yourself and coordinate a meeting that works best for all parties.

Have a great weekend, thank you.

Thanks for the intro George. I am looping in my Chief of Staff, Kathryn O'Connell, Director of Policy, Danish Murtaza and City Key Director, Kendra Thomas.

They would be more than happy to set up a call and share information on our City Key program.

Have a great weekend!
Anna

[Warning: External email]

Eliza and team,

Allow me to introduce, Anna Valencia, the City Clerk of Chicago and the person responsible for the success of the Chicago City Key Municipal ID.

Anna, as mentioned, the City of New Orleans has launched a city card solution that provides access to city services, relief funding and banking services.

This offering will also become a city ID, but the team would enjoy coordinating a call with you and your team to learn and better understand the best way to launch this program.

Eliza, please introduce yourself and coordinate a meeting that works best for all parties.

Have a great weekend, thank you.

Hello Clerk,

Thank you for the warm introduction. We are happy to set up a call. I will send over dates and times on Monday that work for our team.

Regards,
Kendra

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Thanks, George.

Will our weekly 3pm CST standing call (“OLA Multi-Function ID/City Card Project Calls”) be cancelled tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Hello Austin, I'm on business travel at the moment, so today will be challenging.

I did send an email last night, with the following time options for next Mon, Sep 27, where our legal is available.

- 10am to 11am CST
- 2pm to 4pm CST
- After 5pm CST

Do any of these time slots work?

Also, that's great that you'll connect with NORD today so we can get feedback on the other agreement (the Pilot Agreement for access functionality to NORD).

Thank you.

Steve

Good morning Steve,

I have a brief window of availability today from 2:00pm - 2:30pm, which would perhaps allow our office to obtain some baseline information about this specific agreement.

Please be advised that I also have a call scheduled this afternoon with NORD, which will allow me to obtain additional information relative to their agreement with Vermont Systems, Inc. for Rec Trac.

That said, If you also want to propose some times when your team might be available on

Monday of next week, it would be much appreciated.

Kind regards,

Austin P. Wilty

Good afternoon Steve,

Please be advised that all contracts must be reviewed and approved by the City Attorney and executed by the Mayor pursuant to City Charter Sections 4-401(5) and 6-308(1). To that end, our office has some questions for the group and would very much appreciate the opportunity to discuss further at your convenience. If you could please provide a couple times when the folks from Ignite and MasterCard are available, we will calendar an invite at a mutually convenient time.

Kind regards,
Austin

Ready to go! I've reviewed the agreement and have very minor comments in the version attached. The next step is to have our city attorney, Austin Wilty (copied here), to review the agreement to determine who should sign.

I'll provide an update in tomorrow's meeting.

Thanks, George.

Will our weekly 3pm CST standing call ("OLA Multi-Function ID/City Card Project Calls") be cancelled

tomorrow?

If so, can we use that time slot?

If that meeting is on, can we use the first or 2nd half of the hour to do the call?

Hello Kim, want to follow up to see if you have any feedback on the pilot agreement for the UBI cards. I know you have so much on your plate, but I also want to keep our other City Key program progressing.

Even initial feedback would be helpful so we can incorporate that into our final version.

Let me know.

Thank you.
