RE: October 13, 2022 Letter to City of New Orleans

Gentlemen,

In response to your letter received October 13, 2022, Metro Service Group shall perform all its obligations under the Contract, which was entered into and became effective as of April 1, 2017, including but not limited to, twice weekly solid waste collection and once weekly recycling materials collection.

Metro Service Group shall provide the City with access to real-time GPS data of all equipment utilized in the performance of the Contract. Metro Service Group shall provide GPS specific location history and logs upon request.

All solid waste collected during the servicing of the Contract shall be transported to River Birch Landfill in Avondale, Louisiana. As directed, Metro Service Group shall immediately discontinue use of the emergency transfer station.

As the Contract is non-exclusive, the City will continue to utilize additional contractors at its discretion to ensure solid waste is collected in a timely manner. This does not alleviate Metro Service Group under the Contract from performing all services to one hundred percent of their service area.

Please confirm in writing by no later than close of business tomorrow that Metro Service Group will resume performing all obligations provided for in the Contract.

Sincerely,

A handwritten signature in black ink, consisting of a stylized 'M' followed by a long, sweeping horizontal line that tapers to the right.

Matt Torri
Director, Department of Sanitation
